

CADM3 Antibody (Center)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP17304C**Specification**

CADM3 Antibody (Center) - Product Information

Application	WB,E
Primary Accession	O8N126
Other Accession	NP_001120645.1 , NP_067012.1
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	43300
Antigen Region	158-186

CADM3 Antibody (Center) - Additional Information**Gene ID** 57863**Other Names**

Cell adhesion molecule 3, Brain immunoglobulin receptor, Immunoglobulin superfamily member 4B, IgSF4B, Nectin-like protein 1, NECL-1, Synaptic cell adhesion molecule 3, SynCAM3, TSLC1-like protein 1, TSLL1, CADM3, IGSF4B, NECL1, SYNCAM3, TSLL1

Target/Specificity

This CADM3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 158-186 amino acids from the Central region of human CADM3.

Dilution

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

CADM3 Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

CADM3 Antibody (Center) - Protein Information**Name** CADM3

Synonyms IGSF4B, NECL1, SYNCAM3, TSLL1

Function Involved in cell-cell adhesion. Has both calcium-independent homophilic cell-cell adhesion activity and calcium-independent heterophilic cell-cell adhesion activity with IGSF4, NECTIN1 and NECTIN3. Interaction with EPB41L1 may regulate structure or function of cell-cell junctions (By similarity).

Cellular Location

Cell membrane; Single-pass type I membrane protein. Cell junction

Tissue Location

Isoform 1 is expressed mainly in adult and fetal brain. Isoform 2 is highly expressed in adult brain and weakly expressed in placenta. In brain, Isoform 2 is highly expressed in cerebellum.

CADM3 Antibody (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.

CADM3 Antibody (Center) - Images

CADM3 Antibody (Center) (Cat. #AP17304c) western blot analysis in 293 cell line lysates (35ug/lane). This demonstrates the CADM3 antibody detected the CADM3 protein (arrow).

CADM3 Antibody (Center) - Background

IGSF4B is a brain-specific protein related to the calcium-independent cell-cell adhesion molecules known as nectins (see PVRL3; MIM 607147) (Kakunaga et al., 2005 [PubMed 15741237]).
