

GOLGA6B Antibody (Center)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP19019C**Specification**

GOLGA6B Antibody (Center) - Product Information

Application	WB,E
Primary Accession	A6NDN3
Other Accession	P0CG33 , A6NDK9 , O9NYA3 , NP_061122.4
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	79913
Antigen Region	386-413

GOLGA6B Antibody (Center) - Additional Information**Gene ID** 55889**Other Names**

Putative golgin subfamily A member 6B, GOLGA6B, GOLGA

Target/Specificity

This GOLGA6B antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 386-413 amino acids from the Central region of human GOLGA6B.

Dilution

WB~~1:1000

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

GOLGA6B Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

GOLGA6B Antibody (Center) - Images

GOLGA6B Antibody (Center) (Cat. #AP19019c) western blot analysis in NCI-H292 cell line lysates (35ug/lane). This demonstrates the GOLGA6B antibody detected the GOLGA6B protein (arrow).

GOLGA6B Antibody (Center) - Background

This gene is found in a large, low copy repeat sequence or duplication that is found in multiple copies, which are greater than 90% similar, on chromosome 15. Duplicons are associated with deletions, inversions and other chromosomal rearrangements that underlie genomic disease. This gene is a member of the golgin gene family, whose protein products localize to the Golgi apparatus. The majority of the related gene copies are thought to be transcribed pseudogenes. It is not known whether this gene is a pseudogene or if it encodes a golgin protein.
