

STK25 Antibody (C-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP20345b**Specification**

STK25 Antibody (C-term) - Product Information

Application	WB,E
Primary Accession	O00506
Other Accession	O9Z2W1 , Q3SWY6
Reactivity	Human
Predicted	Bovine, Mouse
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	48112
Antigen Region	347-375

STK25 Antibody (C-term) - Additional Information**Gene ID** 10494**Other Names**

Serine/threonine-protein kinase 25, Ste20-like kinase, Sterile 20/oxidant stress-response kinase 1, SOK-1, Ste20/oxidant stress response kinase 1, STK25, SOK1, YSK1

Target/Specificity

This STK25 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 347-375 amino acids from the C-terminal region of human STK25.

Dilution

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

STK25 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

STK25 Antibody (C-term) - Protein Information**Name** STK25 ([HGNC:11404](#))

Synonyms SOK1, YSK1

Function Oxidant stress-activated serine/threonine kinase that may play a role in the response to environmental stress. Targets to the Golgi apparatus where it appears to regulate protein transport events, cell adhesion, and polarity complexes important for cell migration. Part of the striatin-interacting phosphatase and kinase (STRIPAK) complexes. STRIPAK complexes have critical roles in protein (de)phosphorylation and are regulators of multiple signaling pathways including Hippo, MAPK, nuclear receptor and cytoskeleton remodeling. Different types of STRIPAK complexes are involved in a variety of biological processes such as cell growth, differentiation, apoptosis, metabolism and immune regulation (PubMed:[18782753](#)).

Cellular Location

Cytoplasm. Golgi apparatus. Note=Localizes to the Golgi apparatus

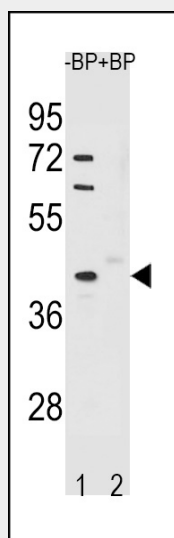

Tissue Location

Ubiquitously expressed. Highest levels are found in testis, large intestine, brain and stomach followed by heart and lung

STK25 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.
