

RAP2A Antibody (C-Term)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP21722b

Specification

RAP2A Antibody (C-Term) - Product Information

Application	WB,E
Primary Accession	P10114
Reactivity	Human
Host	Rabbit
Clonality	polyclonal
Isotype	Rabbit IgG
Calculated MW	20615

RAP2A Antibody (C-Term) - Additional Information

Gene ID 5911

Other Names

Ras-related protein Rap-2a, RbBP-30, RAP2A

Target/Specificity

This RAP2A antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 124-159 amino acids from human RAP2A.

Dilution

WB~~1:2000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

RAP2A Antibody (C-Term) is for research use only and not for use in diagnostic or therapeutic procedures.

RAP2A Antibody (C-Term) - Protein Information

Name RAP2A ([HGNC:9861](#))

Function Small GTP-binding protein which cycles between a GDP-bound inactive and a GTP-bound active form (PubMed:[14966141](#), PubMed:[15342639](#), PubMed:[16246175](#), PubMed:[16540189](#), PubMed:[18930710](#), PubMed:[20159449](#), PubMed:[35293963](#)). In its active form interacts with and

regulates several effectors including MAP4K4, MINK1 and TNIK (PubMed:[14966141](#), PubMed:[15342639](#), PubMed:[18930710](#), PubMed:[20159449](#)). Part of a signaling complex composed of NEDD4, RAP2A and TNIK which regulates neuronal dendrite extension and arborization during development (PubMed:[20159449](#)). More generally, it is part of several signaling cascades and regulates cytoskeletal rearrangements, cell migration, cell adhesion and cell spreading (PubMed:[14966141](#), PubMed:[15342639](#), PubMed:[16246175](#), PubMed:[16540189](#), PubMed:[18930710](#), PubMed:[20159449](#), PubMed:[35293963](#)).

Cellular Location

Midbody. Cell projection, lamellipodium membrane. Golgi apparatus. Recycling endosome membrane; Lipid-anchor; Cytoplasmic side. Lysosome. Note=Localized to the Golgi (PubMed:[35293963](#), PubMed:[7962206](#)). May also localize to the gelatinase- containing granules of neutrophils (PubMed:[8391995](#)). Colocalized with RASGEF1B to midbody at telophase (PubMed:[23894443](#)). Localized predominantly to the plasma membrane, where it is enriched at lamellipodia ruffles (PubMed:[35293963](#)). Cycles between the lamellipodia plasma membrane and endosomes when ubiquitinated by the ECS(RAB40B) complex (PubMed:[35293963](#)). Without the ubiquitin signal, sorted to lysosomes for degradation (PubMed:[35293963](#))

RAP2A Antibody (C-Term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
