

Vimentin Antibody (Center)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP2739c**Specification**

Vimentin Antibody (Center) - Product Information

Application	FC, IHC-P, WB,E
Primary Accession	P08670
Other Accession	P31000 , P02543 , P20152 , P48670 , P48616
Reactivity	Human
Predicted	Bovine, Hamster, Mouse, Pig, Rat
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	53652
Antigen Region	152-181

Vimentin Antibody (Center) - Additional Information**Gene ID** 7431**Other Names**

Vimentin, VIM

Target/Specificity

This Vimentin antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 152-181 amino acids from the Central region of human Vimentin.

Dilution

FC~~1:10~50

IHC-P~~1:10~50

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Vimentin Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

Vimentin Antibody (Center) - Protein Information

Name VIM ([HGNC:12692](#))

Function Vimentins are class-III intermediate filaments found in various non-epithelial cells, especially mesenchymal cells. Vimentin is attached to the nucleus, endoplasmic reticulum, and mitochondria, either laterally or terminally. Plays a role in cell directional movement, orientation, cell sheet organization and Golgi complex polarization at the cell migration front (By similarity). Protects SCRIB from proteasomal degradation and facilitates its localization to intermediate filaments in a cell contact-mediated manner (By similarity).

Cellular Location

Cytoplasm. Cytoplasm, cytoskeleton. Nucleus matrix {ECO:0000250|UniProtKB:P31000}. Cell membrane {ECO:0000250|UniProtKB:P20152}

Tissue Location

Highly expressed in fibroblasts, some expression in T- and B-lymphocytes, and little or no expression in Burkitt's lymphoma cell lines. Expressed in many hormone-independent mammary carcinoma cell lines.

Vimentin Antibody (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.

Vimentin Antibody (Center) - Images

Western blot analysis of Vimentin Antibody (Center) (Cat. #AP2739c) in A2058, A375 cell line lysates (35ug/lane). Vimentin (arrow) was detected using the purified Pab.

Western blot analysis of Vimentin (arrow) using Vimentin Antibody (Center) (Cat. #AP2739c). 293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected with the VIM gene (Lane 2) (Origene Technologies).

Formalin-fixed and paraffin-embedded human breast carcinoma tissue reacted with Vimentin antibody (Center), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.

Vimentin Antibody (Center) (Cat. #AP2739c) immunohistochemistry analysis in formalin fixed and paraffin embedded human prostate tissue followed by peroxidase conjugation of the secondary

antibody and DAB staining. This data demonstrates the use of Vimentin Antibody (Center) for immunohistochemistry. Clinical relevance has not been evaluated.

Vimentin Antibody (Center) (Cat. #AP2739c) flow cytometric analysis of HeLa cells (right histogram) compared to a negative control cell (left histogram). FITC-conjugated donkey-anti-rabbit secondary antibodies were used for the analysis.

Vimentin Antibody (Center) - Background

Along with the microfilaments (actins) and microtubules (tubulins), the intermediate filaments represent a third class of well-characterized cytoskeletal elements. The subunits display a tissue-specific pattern of expression. Desmin (MIM 125660) is the subunit specific for muscle and vimentin the subunit specific for mesenchymal tissue.
