

## **ENT1 Antibody**

## Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP51518

## Specification

## **ENT1 Antibody - Product Information**

Application	WB
Primary Accession	<a href="#">Q99808</a>
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal
Calculated MW	55 KDa
Antigen Region	1 - 60

## **ENT1 Antibody - Additional Information**

Gene ID 2030

## Other Names

Equilibrative nucleoside transporter 1, Equilibrative nitrobenzylmercaptopurine riboside-sensitive nucleoside transporter, Equilibrative NBMPR-sensitive nucleoside transporter, Nucleoside transporter, es-type, Solute carrier family 29 member 1, SLC29A1, ENT1

## Target/Specificity

## KLH conjugated synthetic peptide derived from human ENT1

## Dilution

WB~~ 1:1000

## Format

0.01M PBS, pH 7.2, 0.09% (W/V) Sodium azide, Glycerol 50%

## Storage

Store at -20 °C. Stable for 12 months from date of receipt

## ENT1 Antibody - Protein Information

**Name** SLC29A1 ([HGNC:11003](#))

## Synonyms ENT1

## Function

Functions as a Na<sup>(+)</sup>-independent transporter (PubMed:<a href="http://www.uniprot.org/citations/8986748" target="\_blank">8986748</a>). Involved in the transport of nucleosides such as adenosine, guanosine, inosine, uridine, thymidine and cytidine (PubMed:<a href="http://www.uniprot.org/citations/10722669" target="\_blank">10722669</a>, PubMed:<a href="http://www.uniprot.org/citations/10755314" target="\_blank">10755314</a>, PubMed:<a href="http://www.uniprot.org/citations/12527552" target="\_blank">12527552</a>, PubMed:<a href="http://www.uniprot.org/citations/14759222" target="\_blank">14759222</a>, PubMed:<a href="http://www.uniprot.org/citations/15037197" target="\_blank">15037197</a>, PubMed:<a href="http://www.uniprot.org/citations/17379602" target="\_blank">17379602</a>, PubMed:<a href="http://www.uniprot.org/citations/26406980" target="\_blank">26406980</a>, PubMed:<a href="http://www.uniprot.org/citations/27995448" target="\_blank">27995448</a>, PubMed:<a href="http://www.uniprot.org/citations/35790189" target="\_blank">35790189</a>, PubMed:<a href="http://www.uniprot.org/citations/8986748" target="\_blank">8986748</a>). Functions as a Na<sup>(+)</sup>-independent transporter (PubMed:<a href="http://www.uniprot.org/citations/8986748" target="\_blank">8986748</a>). Involved in the transport of nucleosides such as adenosine, guanosine, inosine, uridine, thymidine and cytidine (PubMed:<a href="http://www.uniprot.org/citations/10722669" target="\_blank">10722669</a>, PubMed:<a href="http://www.uniprot.org/citations/10755314" target="\_blank">10755314</a>, PubMed:<a href="http://www.uniprot.org/citations/12527552" target="\_blank">12527552</a>, PubMed:<a href="http://www.uniprot.org/citations/14759222" target="\_blank">14759222</a>, PubMed:<a href="http://www.uniprot.org/citations/15037197" target="\_blank">15037197</a>, PubMed:<a href="http://www.uniprot.org/citations/17379602" target="\_blank">17379602</a>, PubMed:<a href="http://www.uniprot.org/citations/26406980" target="\_blank">26406980</a>, PubMed:<a href="http://www.uniprot.org/citations/8986748" target="\_blank">8986748</a>). Also transports purine nucleobases (hypoxanthine, adenine, guanine) and pyrimidine nucleobases (thymine, uracil) (PubMed:<a href="http://www.uniprot.org/citations/21795683" target="\_blank">21795683</a>, PubMed:<a href="http://www.uniprot.org/citations/27995448" target="\_blank">27995448</a>). Mediates basolateral nucleoside uptake into Sertoli cells, thereby regulating the transport of nucleosides in testis across the blood-testis barrier (By similarity). Regulates inosine levels in brown adipocytes tissues (BAT) and extracellular inosine levels, which controls BAT-dependent energy expenditure (PubMed:<a href="http://www.uniprot.org/citations/35790189" target="\_blank">35790189</a>).

### Cellular Location

Basolateral cell membrane; Multi-pass membrane protein. Apical cell membrane; Multi-pass membrane protein. Cell membrane; Multi-pass membrane protein. Note=Localized to the basolateral membrane of Sertoli cells (PubMed:23639800). Localized to the cell membrane of erythrocytes (PubMed:11584005, PubMed:23219802).

### Tissue Location

Expressed in testis at the blood-testis barrier (at protein level) (PubMed:23639800). Detected in erythrocytes (at protein level) (PubMed:11584005, PubMed:23219802). Expressed at relatively high levels in cerebral cortex, particularly the frontal and parietal lobes, and the thalamus and basal ganglia (at protein level) (PubMed:11311901). In the midbrain expressed at moderate levels, whereas in the other areas of the brainstem, namely medulla and pons, cerebellum and the hippocampus expressed at lower amounts when compared to the other brain regions (at protein level) (PubMed:11311901) Expressed in Langerhans cells and lymphocytes in the pancreas (at protein level) (PubMed:15501974). Expressed in kidney, in polarized renal epithelial cells (PubMed:12527552). Expressed in adipose tissues (PubMed:35790189). Expressed in placenta (PubMed:8986748). Expressed in small intestine (PubMed:10755314).

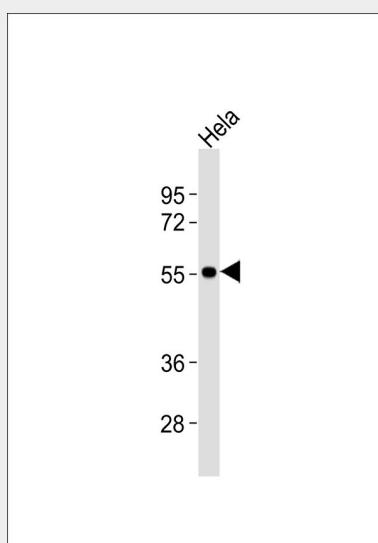

### ENT1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)

- [Flow Cytometry](#)
- [Cell Culture](#)

### ENT1 Antibody - Images

Anti-ENT1 Antibody at 1:1000 dilution + HeLa whole cell lysates Lysates/proteins at 20 µg per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution Predicted band size : 50 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

### ENT1 Antibody - Background

Mediates both influx and efflux of nucleosides across the membrane (equilibrative transporter). It is sensitive (ES) to low concentrations of the inhibitor nitrobenzylmercaptopurine riboside (NBMPR) and is sodium-independent. It has a higher affinity for adenosine. Inhibited by dipyridamole and dilazep (anticancer chemotherapeutics drugs).
