

Ezrin (Phospho-Tyr146) Antibody

Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP52486

Specification

Ezrin (Phospho-Tyr146) Antibody - Product Information

Application WB
Primary Accession P15311

Reactivity Human, Mouse, Rat

Host Rabbit
Clonality Polyclonal
Calculated MW 69413

Ezrin (Phospho-Tyr146) Antibody - Additional Information

Gene ID 7430

Other Names

Ezrin, Cytovillin, Villin-2, p81, EZR, VIL2

Dilution

WB~~1:1000

Format

Rabbit IgG in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.09% (W/V) sodium azide and 50% glycerol.

Storage Conditions

-20°C

Ezrin (Phospho-Tyr146) Antibody - Protein Information

Name EZR

Synonyms VIL2

Function

Probably involved in connections of major cytoskeletal structures to the plasma membrane. In epithelial cells, required for the formation of microvilli and membrane ruffles on the apical pole. Along with PLEKHG6, required for normal macropinocytosis.

Cellular Location

Apical cell membrane; Peripheral membrane protein; Cytoplasmic side. Cell projection. Cell projection, microvillus membrane; Peripheral membrane protein; Cytoplasmic side. Cell projection, ruffle membrane; Peripheral membrane protein; Cytoplasmic side. Cytoplasm, cell cortex. Cytoplasm, cytoskeleton. Cell projection, microvillus {ECO:0000250|UniProtKB:P26040}. Note=Localization to the apical membrane of parietal cells depends on the interaction with PALS1 Localizes to cell extensions and peripheral processes of astrocytes (By similarity). Microvillar

Tel: 858.875.1900 Fax: 858.875.1999

peripheral membrane protein (cytoplasmic side). {ECO:0000250|UniProtKB:P31977}

Tissue Location

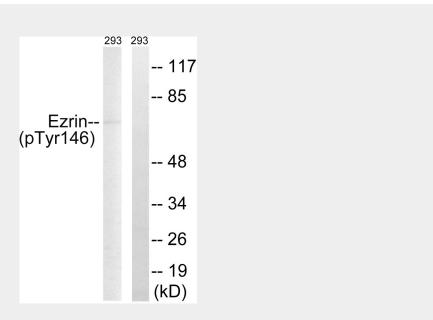

Expressed in cerebral cortex, basal ganglia, hippocampus, hypophysis, and optic nerve. Weakly expressed in brain stem and diencephalon. Stronger expression was detected in gray matter of frontal lobe compared to white matter (at protein level). Component of the microvilli of intestinal epithelial cells. Preferentially expressed in astrocytes of hippocampus, frontal cortex, thalamus, parahippocampal cortex, amygdala, insula, and corpus callosum. Not detected in neurons in most tissues studied

Ezrin (Phospho-Tyr146) Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

Ezrin (Phospho-Tyr146) Antibody - Images

Western blot analysis of extracts from 293 cells, treated with UV (15mins), using Ezrin (Phospho-Tyr146) antibody.

Ezrin (Phospho-Tyr146) Antibody - Background

Probably involved in connections of major cytoskeletal structures to the plasma membrane. In epithelial cells, required for the formation of microvilli and membrane ruffles on the apical pole. Along with PLEKHG6, required for normal macropinocytosis.
