

Islet 1 Rabbit pAb

Catalog # AP53531

Specification

Islet 1 Rabbit pAb - Product Information

Application
Primary Accession
Host
Clonality
Calculated MW

WB, FC, IP
P61371
Rabbit
Polyclonal Antibody
39036

Islet 1 Rabbit pAb - Additional Information

Gene ID 3670

Other Names

Insulin gene enhancer protein ISL-1, Islet-1, ISL1

Dilution

WB~~1:1000 FC~~1:10~50 IP~~N/A

Format

50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40%Glycerol, 0.01% sodium azide and 0.05% BSA.

Storage

Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.

Islet 1 Rabbit pAb - Protein Information

Name ISL1

Function

DNA-binding transcriptional activator. Recognizes and binds to the consensus octamer binding site 5'-ATAATTAA-3' in promoter of target genes. Plays a fundamental role in the gene regulatory network essential for retinal ganglion cell (RGC) differentiation. Cooperates with the transcription factor POU4F2 to achieve maximal levels of expression of RGC target genes and RGC fate specification in the developing retina. Involved in the specification of motor neurons in cooperation with LHX3 and LDB1 (By similarity). Binds to insulin gene enhancer sequences (By similarity). Essential for heart development. Marker of one progenitor cell population that give rise to the outflow tract, right ventricle, a subset of left ventricular cells, and a large number of atrial cells as well, its function is required for these progenitors to contribute to the heart. Controls the expression of FGF and BMP growth factors in this cell population and is required for proliferation and survival of cells within pharyngeal foregut endoderm and adjacent splanchnic mesoderm as well as for migration of cardiac progenitors into the heart (By similarity).

Cellular Location

Nucleus {ECO:0000250|UniProtKB:P61372}.

Tissue Location

Expressed in subsets of neurons of the adrenal medulla and dorsal root ganglion, inner nuclear and ganglion cell layers in the retina, the pineal and some regions of the brain

Islet 1 Rabbit pAb - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture

Islet 1 Rabbit pAb - Images

Western blot detection of Islet 1 in Jurkat, K562 cell lysates using Islet 1 Rabbit pAb(1:1000 diluted). Predicted band size:39KDa. Observed band size:39KDa.

Islet 1 Rabbit pAb - Background

Swiss-Prot Acc.P61371.
