

TM2D3 Antibody (N-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP5366a

Specification

TM2D3 Antibody (N-term) - Product Information

Application	WB,E
Primary Accession	O9BRN9
Other Accession	NP_510883.2
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	27118
Antigen Region	22-50

TM2D3 Antibody (N-term) - Additional Information

Gene ID 80213

Other Names

TM2 domain-containing protein 3, Beta-amyloid-binding protein-like protein 2, BBP-like protein 2, TM2D3, BLP2

Target/Specificity

This TM2D3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 22-50 amino acids from the N-terminal region of human TM2D3.

Dilution

WB~~1:1000

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

TM2D3 Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

TM2D3 Antibody (N-term) - Protein Information

Name TM2D3

Synonyms BLP2

Cellular Location

Membrane; Multi-pass membrane protein

Tissue Location

Widely expressed..

TM2D3 Antibody (N-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

TM2D3 Antibody (N-term) - Images

TM2D3 Antibody (N-term)(Cat. #AP5366a) western blot analysis in WiDr cell line lysates (35ug/lane). This demonstrates the TM2D3 antibody detected the TM2D3 protein (arrow).

TM2D3 Antibody (N-term) - Background

The protein encoded by this gene contains a structural module related to that of the seven transmembrane domain G protein-coupled receptor superfamily. This protein has sequence and structural similarities to the beta-amyloid binding protein (BBP), but, unlike BBP, it does not regulate a response to beta-amyloid peptide. This protein may have regulatory roles in cell death or proliferation signal cascades. Several alternatively spliced transcript variants of this gene are described but the full length nature of some variants has not been determined. Multiple polyadenylation sites have been found in this gene. [provided by RefSeq].
