# Anti-AGXT2L2 Antibody - Images

Western blot analysis of AGXT2L2 expression in mouse kidney (A), rat kidney (B) whole cell lysates.

Immunohistochemical analysis of AGXT2L2 staining in human colon cancer formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.
