

## Cleaved-Factor X/ Factor X LC (A41) Polyclonal Antibody

**Catalog # AP63157** 

### **Specification**

## Cleaved-Factor X/ Factor X LC (A41) Polyclonal Antibody - Product Information

Application WB
Primary Accession P00742
Reactivity Human
Host Rabbit
Clonality Polyclonal

# Cleaved-Factor X/ Factor X LC (A41) Polyclonal Antibody - Additional Information

**Gene ID 2159** 

#### **Other Names**

F10; Coagulation factor X; Stuart factor; Stuart-Prower factor

#### Dilution

WB~~Western Blot: 1/500 - 1/2000. ELISA: 1/20000. Not yet tested in other applications.

#### **Format**

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

### **Storage Conditions**

-20°C

# Cleaved-Factor X/ Factor X LC (A41) Polyclonal Antibody - Protein Information

# Name F10

#### **Function**

Factor Xa is a vitamin K-dependent glycoprotein that converts prothrombin to thrombin in the presence of factor Va, calcium and phospholipid during blood clotting (PubMed:<a href="http://www.uniprot.org/citations/22409427" target="\_blank">22409427</a>). Factor Xa activates pro-inflammatory signaling pathways in a protease-activated receptor (PAR)-dependent manner (PubMed:<a href="http://www.uniprot.org/citations/24041930" target="\_blank">24041930" target="\_blank">24041930</a>, PubMed:<a href="http://www.uniprot.org/citations/30568593" target="\_blank">30568593</a>, PubMed:<a href="http://www.uniprot.org/citations/34831181" target="\_blank">34831181</a>, PubMed:<a href="http://www.uniprot.org/citations/18202198" target="\_blank">18202198</a>, PubMed:<a href="http://www.uniprot.org/citations/18202198" target="\_blank">18202198</a> in dermal microvascular endothelial cells (PubMed:<a href="http://www.uniprot.org/citations/35738824" target="\_blank">35738824</a>). Triggers the production of pro- inflammatory cytokines, such as MCP-1/CCL2 and IL6, in cardiac fibroblasts and umbilical vein endothelial cells in PAR-1/F2R-dependent manner (PubMed:<a href="http://www.uniprot.org/citations/30568593" target="\_blank">30568593</a>, PubMed:<a href="http://www.uniprot.org/citations/34831181" target="\_blank">34831181</a>, PubMed:<a h

IL8/CXCL8 and IL18, in endothelial cells and atrial tissues (PubMed:<a href="http://www.uniprot.org/citations/24041930" target=" blank">24041930</a>, PubMed:<a href="http://www.uniprot.org/citations/35738824" target="\_blank">35738824</a>, PubMed:<a href="http://www.uniprot.org/citations/9780208" target="\_blank">9780208</a>). Induces expression of adhesion molecules, such as ICAM1, VCAM1 and SELE, in endothelial cells and atrial tissues (PubMed:<a href="http://www.uniprot.org/citations/24041930" target=" blank">24041930</a>, PubMed:<a href="http://www.uniprot.org/citations/35738824" target="blank">35738824</a>, PubMed:<a href="http://www.uniprot.org/citations/9780208" target="blank">9780208</a>). Increases expression of phosphorylated ERK1/2 in dermal microvascular endothelial cells and atrial tissues (PubMed:<a href="http://www.uniprot.org/citations/24041930" target=" blank">24041930</a>, PubMed:<a href="http://www.uniprot.org/citations/35738824" target="blank">35738824</a>). Triggers activation of the transcription factor NF-kappa-B in dermal microvascular endothelial cells and atrial tissues (PubMed: <a href="http://www.uniprot.org/citations/24041930" target=" blank">24041930</a>, PubMed:<a href="http://www.uniprot.org/citations/35738824" target="blank">35738824</a>). Activates pro-inflammatory and pro-fibrotic responses in dermal fibroblasts and enhances wound healing probably via PAR-2/F2RL1-dependent mechanism (PubMed:<a href="http://www.uniprot.org/citations/18202198" target=" blank">18202198</a>). Activates barrier protective signaling responses in endothelial cells in PAR-2/F2RL1-dependent manner; the activity depends on the cleavage of PAR-2/F2RL1 by factor Xa (PubMed: <a href="http://www.uniprot.org/citations/22409427" target="blank">22409427</a>). Up-

regulates expression of plasminogen activator inhibitor 1 (SERPINE1) in atrial tissues (PubMed: <a

Cellular Location Secreted.

**Tissue Location** 

Plasma; synthesized in the liver.

## Cleaved-Factor X/ Factor X LC (A41) Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

href="http://www.uniprot.org/citations/24041930" target=" blank">24041930</a>).

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- <u>Immunofluorescence</u>
- Immunoprecipitation
- Flow Cytomety
- Cell Culture
