

Chromogranin-C Antibody (Center)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP6796c**Specification**

Chromogranin-C Antibody (Center) - Product Information

Application	IHC-P, WB,E
Primary Accession	P13521
Other Accession	Q5FZP5
Reactivity	Human
Predicted	Pig
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	70941
Antigen Region	246-274

Chromogranin-C Antibody (Center) - Additional Information**Gene ID** 7857**Other Names**

Secretogranin-2, Chromogranin-C, Secretogranin II, SgII, Secretoneurin, SN, SCG2, CHGC

Target/Specificity

This Chromogranin-C antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 246-274 amino acids from the Central region of human Chromogranin-C.

Dilution

IHC-P~~1:50~100

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Chromogranin-C Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

Chromogranin-C Antibody (Center) - Protein Information

Name SCG2

Synonyms CHGC

Function Neuroendocrine protein of the granin family that regulates the biogenesis of secretory granules.

Cellular Location

Secreted. Note=Neuroendocrine and endocrine secretory granules

Chromogranin-C Antibody (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.

Chromogranin-C Antibody (Center) - Images

Western blot analysis of Chromogranin-C Antibody (Center) (Cat. #AP6796c) in Ramos cell line lysates (35ug/lane). SCG2 (arrow) was detected using the purified Pab.

Chromogranin-C Antibody (Center) (Cat. #AP6796c) IHC analysis in formalin fixed and paraffin embedded mouse brain tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of the Chromogranin-C Antibody (Center) for immunohistochemistry. Clinical relevance has not been evaluated.

Chromogranin-C Antibody (Center) - Background

Chromogranin-C is a member of the chromogranin/secretogranin family of neuroendocrine secretory proteins. Studies in rodents suggest that the full-length protein, secretogranin II, is involved in the packaging or sorting of peptide hormones and neuropeptides into secretory vesicles. The full-length protein is cleaved to produce the active peptide secretoneurin, which exerts chemotactic effects on specific cell types, and EM66, whose function is unknown.
