

E2F-5 Polyclonal Antibody
Catalog # AP69628**Specification**

E2F-5 Polyclonal Antibody - Product Information

| | |
|-------------------|------------------------|
| Application | WB |
| Primary Accession | Q15329 |
| Reactivity | Human, Mouse, Rat |
| Host | Rabbit |
| Clonality | Polyclonal |

E2F-5 Polyclonal Antibody - Additional Information**Gene ID** 1875**Other Names**

E2F5; Transcription factor E2F5; E2F-5

Dilution

WB~~Western Blot: 1/500 - 1/2000. ELISA: 1/20000. Not yet tested in other applications.

Format

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

Storage Conditions

-20°C

E2F-5 Polyclonal Antibody - Protein Information**Name** E2F5**Function**

Transcriptional activator that binds to E2F sites, these sites are present in the promoter of many genes whose products are involved in cell proliferation. May mediate growth factor-initiated signal transduction. It is likely involved in the early responses of resting cells to growth factor stimulation. Specifically required for multiciliate cell differentiation: together with MCIDAS and E2F5, binds and activate genes required for centriole biogenesis.

Cellular Location

Nucleus.

E2F-5 Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
