

**OTUD2 Polyclonal Antibody**  
**Catalog # AP71659****Specification**

---

**OTUD2 Polyclonal Antibody - Product Information**

Application	WB
Primary Accession	<a href="#">Q5VVQ6</a>
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal

**OTUD2 Polyclonal Antibody - Additional Information****Gene ID** 55432**Other Names**

YOD1; DUBA8; HIN7; OTUD2; Ubiquitin thioesterase OTU1; DUBA-8; HIV-1-induced protease 7; HIN-7; HsHIN7; OTU domain-containing protein 2

**Dilution**

WB~~Western Blot: 1/500 - 1/2000. ELISA: 1/10000. Not yet tested in other applications.

**Format**

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

**Storage Conditions**

-20°C

**OTUD2 Polyclonal Antibody - Protein Information****Name** YOD1**Synonyms** DUBA8, HIN7, OTUD2**Function**

Hydrolase that can remove conjugated ubiquitin from proteins and participates in endoplasmic reticulum-associated degradation (ERAD) for misfolded luminal proteins. May act by trimming the ubiquitin chain on the associated substrate to facilitate their threading through the VCP/p97 pore. Ubiquitin moieties on substrates may present a steric impediment to the threading process when the substrate is transferred to the VCP pore and threaded through VCP's axial channel. Mediates deubiquitination of 'Lys-27'-, 'Lys-29'- and 'Lys-33'-linked polyubiquitin chains. Also able to hydrolyze 'Lys-11'-linked ubiquitin chains. Cleaves both polyubiquitin and di-ubiquitin. May play a role in macroautophagy, regulating for instance the clearance of damaged lysosomes. May recruit PLAA, UBXN6 and VCP to damaged lysosome membranes decorated with K48-linked ubiquitin chains and remove these chains allowing autophagosome formation (PubMed:<a href="http://www.uniprot.org/citations/27753622" target="\_blank">27753622</a>).

**Cellular Location**

Cytoplasm. Note=Recruited to damaged lysosomes decorated with K48-linked ubiquitin chains.

### OTUD2 Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
