

Lamin B1 Polyclonal Antibody
Catalog # AP73363**Specification****Lamin B1 Polyclonal Antibody - Product Information**

Application	WB, IHC-P
Primary Accession	P20700
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal

Lamin B1 Polyclonal Antibody - Additional Information**Gene ID** 4001**Other Names**

LMNB1; LMN2; LMNB; Lamin-B1

Dilution

WB~~Western Blot: 1/500 - 1/2000. IHC-p: 1:100-300 ELISA: 1/20000. Not yet tested in other applications.

IHC-P~~N/A

Format

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

Storage Conditions

-20°C

Lamin B1 Polyclonal Antibody - Protein Information**Name** LMNB1**Synonyms** LMN2, LMNB**Function**

Lamins are intermediate filament proteins that assemble into a filamentous meshwork, and which constitute the major components of the nuclear lamina, a fibrous layer on the nucleoplasmic side of the inner nuclear membrane (PubMed:<<http://www.uniprot.org/citations/28716252>>28716252, PubMed:<<http://www.uniprot.org/citations/32910914>>32910914). Lamins provide a framework for the nuclear envelope, bridging the nuclear envelope and chromatin, thereby playing an important role in nuclear assembly, chromatin organization, nuclear membrane and telomere dynamics (PubMed:<<http://www.uniprot.org/citations/28716252>>28716252, PubMed:<<http://www.uniprot.org/citations/32910914>>32910914). The structural integrity of the lamina is strictly controlled by the cell cycle, as seen by the disintegration and formation of the nuclear envelope in prophase and telophase, respectively (PubMed:<<http://www.uniprot.org/citations/28716252>>28716252),

PubMed: [32910914](http://www.uniprot.org/citations/32910914)).

Cellular Location
Nucleus lamina

Lamin B1 Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

Lamin B1 Polyclonal Antibody - Background

Lamins are components of the nuclear lamina, a fibrous layer on the nucleoplasmic side of the inner nuclear membrane, which is thought to provide a framework for the nuclear envelope and may also interact with chromatin.
