

T Box Protein 3 Rabbit mAb

Catalog # AP76156

Specification

T Box Protein 3 Rabbit mAb - Product Information

Application WB, IP
Primary Accession O15119
Reactivity Mouse
Host Rabbit

Clonality Monoclonal Antibody

Calculated MW 79389

T Box Protein 3 Rabbit mAb - Additional Information

Gene ID 6926

Other Names

TBX3

Dilution

WB~~1/500-1/1000

 $IP \sim \sim N/A$

Format

50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40%Glycerol, 0.01% sodium azide and 0.05% BSA.

Storage

Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.

T Box Protein 3 Rabbit mAb - Protein Information

Name TBX3

Function

Transcriptional repressor involved in developmental processes (PubMed: 10468588). Binds to the palindromic T site 5'- TTCACACCTAGGTGTGAA-3' DNA sequence, or a half-site, which are present in the regulatory region of several genes (PubMed:<a

 $href="http://www.uniprot.org/citations/12000749" target="_blank">12000749). Probably plays a role in limb pattern formation (PubMed:<a$

href="http://www.uniprot.org/citations/10468588" target="_blank">10468588). Required for mammary placode induction, and maintenance of the mammary buds during development (By similarity). Involved in branching morphogenesis in both developing lungs and adult mammary glands, via negative modulation of target genes; acting redundantly with TBX2 (By similarity). Required, together with TBX2, to maintain cell proliferation in the embryonic lung mesenchyme; perhaps acting downstream of SHH, BMP and TGFbeta signaling (By similarity). Involved in modulating early inner ear development, acting independently of, and also redundantly with, TBX2 in different subregions of the developing ear (By similarity). Acts as a negative regulator of PML

function in cellular senescence (PubMed:22002537).

Cellular Location

Nucleus {ECO:0000255|PROSITE-ProRule:PRU00201}.

Tissue Location

Widely expressed.

T Box Protein 3 Rabbit mAb - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture
