

STK38L Antibody (C-term)

Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP7728b

Specification

STK38L Antibody (C-term) - Product Information

Application WB,E **Primary Accession** 09Y2H1 07T<u>SE6</u> Other Accession Reactivity Human Predicted Mouse Host **Rabbit** Clonality **Polyclonal** Isotype Rabbit IgG Calculated MW 54003 Antigen Region 408-437

STK38L Antibody (C-term) - Additional Information

Gene ID 23012

Other Names

Serine/threonine-protein kinase 38-like, NDR2 protein kinase, Nuclear Dbf2-related kinase 2, STK38L {ECO:0000312|EMBL:AAH286031}

Target/Specificity

This STK38L antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 408-437 amino acids from the C-terminal region of human STK38L.

Dilution

WB~~1:1000

E~~Use at an assay dependent concentration.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

STK38L Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

STK38L Antibody (C-term) - Protein Information

Name STK38L {ECO:0000312|EMBL:AAH28603.1}

Tel: 858.875.1900 Fax: 858.875.1999

Function Involved in the regulation of structural processes in differentiating and mature neuronal cells.

Cellular Location

Cytoplasm. Cytoplasm, cytoskeleton. Membrane. Note=Associated with the actin cytoskeleton. Co-localizes with STK24/MST3 in the membrane

Tissue Location

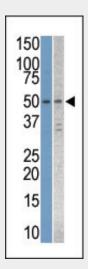

Ubiquitously expressed with highest levels observed in the thymus.

STK38L Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

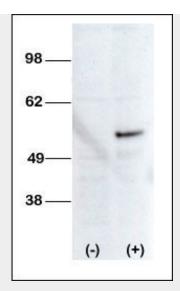

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

STK38L Antibody (C-term) - Images

The anti-STK38L Pab (Cat. #AP7728b) is used in Western blot to detect STK38L in Jurkat and T47D cell line lysates.

Western blot analysis of anti-STK38L Pab (Cat. #AP7728b) transiently transfected HEK-293 cell line lysate (1ug/lane). STK38L pab(arrow) was detected using the purified Pab

STK38L Antibody (C-term) - Background

STK38L contains 12 protein kinase catalytic subdomains and a potential bipartite nuclear localization signal. Northern blot analysis revealed expression of a 3.9-kb transcript in all tissues tested, with the possible exception of adult brain. Highest expression was in peripheral blood leukocytes. Immunoblot and immunofluorescence microscopy demonstrated predominantly nuclear expression of a 55-kD protein.
