

MCSF Antibody

Rabbit mAb Catalog # AP90401

Specification

MCSF Antibody - Product Information

Application WB, IHC, ICC, IP

Primary Accession P09603
Clonality Monoclonal

Other Names

CSF1; Csfm; MCSF; MGC31930; Macrophage colony stimulating factor;

Isotype Rabbit IgG
Host Rabbit
Calculated MW 60179 Da

MCSF Antibody - Additional Information

Dilution WB~~1:1000

IHC~~1:100~500

ICC~~N/A IP~~N/A

Purification Affinity-chromatography

Immunogen A synthesized peptide derived from human

MCSF

Description CSF1, also known as MCSF, is a

four-α-helicalbundle cytokine that controls

the production, differentiation, and

function of macrophages. The active form of the protein is found extracellularly as a disulfide-linked homodimer, and is thought to be produced by proteolytic cleavage of membrane-bound precursors. This protein may be involved in development of the

placenta.

Storage Condition and Buffer Rabbit IgG in phosphate buffered saline,

pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid

freeze / thaw cycle.

MCSF Antibody - Protein Information

Name CSF1

Function

Cytokine that plays an essential role in the regulation of survival, proliferation and differentiation of hematopoietic precursor cells, especially mononuclear phagocytes, such as macrophages and monocytes. Promotes the release of pro-inflammatory chemokines, and thereby plays an

Tel: 858.875.1900 Fax: 858.875.1999

important role in innate immunity and in inflammatory processes. Plays an important role in the regulation of osteoclast proliferation and differentiation, the regulation of bone resorption, and is required for normal bone development. Required for normal male and female fertility. Promotes reorganization of the actin cytoskeleton, regulates formation of membrane ruffles, cell adhesion and cell migration. Plays a role in lipoprotein clearance.

Cellular Location

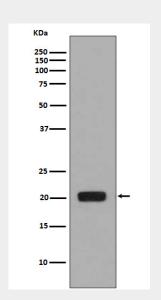

Cell membrane; Single-pass type I membrane protein

MCSF Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture

MCSF Antibody - Images

Western blot analysis of MCSF expression in MCSF recombinant protein.
