

## **WASL Antibody**

Rabbit mAb Catalog # AP91351

### **Specification**

## **WASL Antibody - Product Information**

Application WB, IHC, FC, ICC

Primary Accession O00401
Clonality Monoclonal

**Other Names** 

N-WASP; Neural Wiskott Aldrich syndrome protein; NWASP; Wasl; WASPB; Wiskott Aldrich

syndrome gene like;

Isotype Rabbit IgG
Host Rabbit
Calculated MW 54827 Da

## **WASL Antibody - Additional Information**

Dilution WB~~1:1000

IHC~~1:100~500 FC~~1:10~50

ICC~~N/A

Purification Affinity-chromatography

Immunogen A synthesized peptide derived from human

WASL

Description Regulates actin polymerization by

stimulating the actin-nucleating activity of the Arp2/3 complex. Binds to HSF1/HSTF1 and forms a complex on heat shock promoter elements (HSE) that negatively

regulates HSP90 expression.

Storage Condition and Buffer Rabbit IgG in phosphate buffered saline ,

pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid

freeze / thaw cycle.

#### **WASL Antibody - Protein Information**

# **Name WASL**

#### **Function**

Regulates actin polymerization by stimulating the actin- nucleating activity of the Arp2/3 complex (PubMed:<a href="http://www.uniprot.org/citations/16767080" target="\_blank">16767080</a>, PubMed:<a href="http://www.uniprot.org/citations/19366662" target="\_blank">19366662</a>, PubMed:<a href="http://www.uniprot.org/citations/19487689" target="\_blank">19487689</a>, PubMed:<a href="http://www.uniprot.org/citations/22847007" target="\_blank">22847007</a>, PubMed:<a href="http://www.uniprot.org/citations/22921828" target="\_blank">22921828</a>,

PubMed:<a href="http://www.uniprot.org/citations/9422512" target=" blank">9422512</a>). Involved in various processes, such as mitosis and cytokinesis, via its role in the regulation of actin polymerization (PubMed: <a href="http://www.uniprot.org/citations/19366662" target=" blank">19366662</a>, PubMed:<a href="http://www.uniprot.org/citations/19487689" target=" blank">19487689</a>, PubMed:<a href="http://www.uniprot.org/citations/22847007" target="blank">22847007</a>, PubMed:<a href="http://www.uniprot.org/citations/22921828" target=" blank">22921828</a>, PubMed:<a href="http://www.uniprot.org/citations/9422512" target="blank">9422512</a>). Together with CDC42, involved in the extension and maintenance of the formation of thin, actin-rich surface projections called filopodia (PubMed: <a href="http://www.uniprot.org/citations/9422512" target="\_blank">9422512</a>). In addition to its role in the cytoplasm, also plays a role in the nucleus by regulating gene transcription, probably by promoting nuclear actin polymerization (PubMed:<a href="http://www.uniprot.org/citations/16767080" target=" blank">16767080</a>). Binds to HSF1/HSTF1 and forms a complex on heat shock promoter elements (HSE) that negatively regulates HSP90 expression (By similarity). Plays a role in dendrite spine morphogenesis (By similarity). Decreasing levels of DNMBP (using antisense RNA) alters apical junction morphology in cultured enterocytes, junctions curve instead of being nearly linear (PubMed: <a

### **Cellular Location**

Cytoplasm, cytoskeleton. Nucleus Cytoplasm {ECO:0000250|UniProtKB:Q91YD9}. Note=Preferentially localized in the cytoplasm when phosphorylated and in the nucleus when unphosphorylated (By similarity). Exported from the nucleus by an nuclear export signal (NES)-dependent mechanism to the cytoplasm (By similarity). {ECO:0000250|UniProtKB:Q91YD9}

## **WASL Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

href="http://www.uniprot.org/citations/19767742" target=" blank">19767742</a>).

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- <u>Immunofluorescence</u>
- Immunoprecipitation
- Flow Cytomety
- Cell Culture
