

## **PAR4 Antibody**

Rabbit mAb Catalog # AP92391

# **Specification**

## **PAR4 Antibody - Product Information**

Application WB
Primary Accession Q96IZ0
Reactivity Rat

Clonality Monoclonal

Other Names PAR 4; Pawr;

Isotype Rabbit IgG
Host Rabbit
Calculated MW 36568 Da

# **PAR4 Antibody - Additional Information**

Dilution WB~~1:1000

Purification Affinity-chromatography

Immunogen A synthesized peptide derived from human

PAR4

Description Pro-apoptopic protein capable of

selectively inducing apoptosis in cancer cells, sensitizing the cells to diverse

apoptotic stimuli and causing regression of

tumors in animal models. Induces apoptosis in certain cancer cells by activation of the Fas prodeath pathway and coparallel inhibition of NF-kappa-B

transcriptional activity.

Storage Condition and Buffer Rabbit IgG in phosphate buffered saline ,

pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid

freeze / thaw cycle.

#### **PAR4 Antibody - Protein Information**

Name PAWR

**Synonyms PAR4** 

#### **Function**

Pro-apoptotic protein capable of selectively inducing apoptosis in cancer cells, sensitizing the cells to diverse apoptotic stimuli and causing regression of tumors in animal models. Induces apoptosis in certain cancer cells by activation of the Fas prodeath pathway and coparallel inhibition of NF-kappa-B transcriptional activity. Inhibits the transcriptional activation and augments the

transcriptional repression mediated by WT1. Down-regulates the anti- apoptotic protein BCL2 via

its interaction with WT1. Also seems to be a transcriptional repressor by itself. May be directly

involved in regulating the amyloid precursor protein (APP) cleavage activity of BACE1.

## **Cellular Location**

Cytoplasm. Nucleus. Note=Mainly cytoplasmic in absence of apoptosis signal and in normal cells. Nuclear in most cancer cell lines. Nuclear entry seems to be essential but not sufficient for apoptosis (By similarity). Nuclear localization includes nucleoplasm and PML nuclear bodies.

## **Tissue Location**

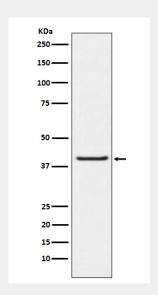

Widely expressed. Expression is elevated in various neurodegenerative diseases such as amyotrophic lateral sclerosis, Alzheimer, Parkinson and Huntington diseases and stroke. Down-regulated in several cancers.

# **PAR4 Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture

## **PAR4 Antibody - Images**

Western blot analysis of PAR4 expression in LnCaP cell lysate.
