

### **CIRBP Antibody**

Rabbit mAb Catalog # AP92642

## **Specification**

### **CIRBP Antibody - Product Information**

Application WB, IHC, ICC, IP

Primary Accession O14011
Clonality Monoclonal

**Other Names** 

A18HNRNP; cirbp; CIRP; Cold inducible RNA binding protein;

Isotype Rabbit IgG
Host Rabbit
Calculated MW 18648 Da

### **CIRBP Antibody - Additional Information**

Dilution WB~~1:1000

IHC~~1:100~500

ICC~~N/A IP~~N/A

Purification Affinity-chromatography

Immunogen

A synthesized peptide derived from CIRBP

Cold-inducible mRNA binding protein that

plays a protective role in the genotoxic stress response by stabilizing transcripts of genes involved in cell survival. Acts as a

translational activator.

Storage Condition and Buffer Rabbit IgG in phosphate buffered saline,

pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid

freeze / thaw cycle.

### **CIRBP Antibody - Protein Information**

Name CIRBP

Synonyms A18HNRNP, CIRP

#### **Function**

Cold-inducible mRNA binding protein that plays a protective role in the genotoxic stress response by stabilizing transcripts of genes involved in cell survival. Acts as a translational activator. Seems to play an essential role in cold-induced suppression of cell proliferation. Binds specifically to the 3'-untranslated regions (3'- UTRs) of stress-responsive transcripts RPA2 and TXN. Acts as a translational repressor (By similarity). Promotes assembly of stress granules (SGs), when overexpressed.

### **Cellular Location**

Nucleus, nucleoplasm. Cytoplasm Note=Translocates from the nucleus to the cytoplasm after exposure to UV radiation. Translocates from the nucleus to the cytoplasm into stress granules upon various cytoplasmic stresses, such as osmotic and heat shocks. Its recruitment into stress granules occurs in the absence of TIAR proteins (By similarity).

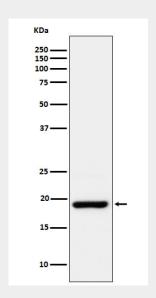

**Tissue Location** Ubiquitous.

### **CIRBP Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture

# **CIRBP Antibody - Images**

Western blot analysis of CIRBP expression in HepG2 cell lysate.
