

GRSF1 Antibody
Rabbit mAb
Catalog # AP92855**Specification****GRSF1 Antibody - Product Information**

Application	WB, FC, ICC, IP
Primary Accession	Q12849
Reactivity	Rat
Clonality	Monoclonal
Other Names	
G rich RNA sequence binding factor 1; G rich sequence binding factor 1; GRSF1;	
Isotype	Rabbit IgG
Host	Rabbit
Calculated MW	53126 Da

GRSF1 Antibody - Additional Information

Dilution	WB~~1:1000 FC~~1:10~50 ICC~~N/A IP~~N/A
Purification	Affinity-chromatography
Immunogen	A synthesized peptide derived from human GRSF1
Description	Regulator of post-transcriptional mitochondrial gene expression, required for assembly of the mitochondrial ribosome and for recruitment of mRNA and lncRNA.
Storage Condition and Buffer	Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

GRSF1 Antibody - Protein Information**Name** GRSF1**Function**

Regulator of post-transcriptional mitochondrial gene expression, required for assembly of the mitochondrial ribosome and for recruitment of mRNA and lncRNA. Binds RNAs containing the 14 base G- rich element. Preferentially binds RNAs transcribed from three contiguous genes on the light strand of mtDNA, the ND6 mRNA, and the long non-coding RNAs for MT-CYB and MT-ND5, each of which contains multiple consensus binding sequences (PubMed:23473033, PubMed:23473034, PubMed:23473035).

[29967381](http://www.uniprot.org/citations/29967381)). Involved in the degradosome-mediated decay of non-coding mitochondrial transcripts (MT-ncRNA) and tRNA-like molecules (PubMed: [29967381](http://www.uniprot.org/citations/29967381)). Acts by unwinding G-quadruplex RNA structures in MT-ncRNA, thus facilitating their degradation by the degradosome (PubMed: [29967381](http://www.uniprot.org/citations/29967381)). G-quadruplexes (G4) are non-canonical 4 stranded structures formed by transcripts from the light strand of mtDNA (PubMed: [29967381](http://www.uniprot.org/citations/29967381)).

Cellular Location

[Isoform 1]: Mitochondrion matrix Note=Localizes to mitochondrial RNA granules found in close proximity to the mitochondrial nucleoids.

GRSF1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
