

TMF Antibody

Rabbit mAb Catalog # AP93092

Specification

TMF Antibody - Product Information

Application Primary Accession Clonality Other Names ARA160; TMF; Tmf1;	WB, ICC <u>P82094</u> Monoclonal
lsotype Host Calculated MW	Rabbit IgG Rabbit 122842 Da
TMF Antibody - Additional Information	
Dilution	WB~~1:1000 ICC~~N/A
Purification Immunogen	Affinity-chromatography A synthesized peptide derived from human TMF
Description	Potential coactivator of the androgen receptor. Mediates STAT3 degradation. May play critical roles in two RAB6-dependent retrograde transport processes: one from endosomes to the Golgi and the other from the Golgi to the ER. This protein binds the HIV-1 TATA element and inhibits transcriptional activation by the TATA-binding protein
Storage Condition and Buffer	(TBP). Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

TMF Antibody - Protein Information

Name TMF1

Synonyms ARA160

Function

Potential coactivator of the androgen receptor. Mediates STAT3 degradation. May play critical roles in two RAB6-dependent retrograde transport processes: one from endosomes to the Golgi and the other from the Golgi to the ER. This protein binds the HIV-1 TATA element and inhibits

transcriptional activation by the TATA-binding protein (TBP).

Cellular Location

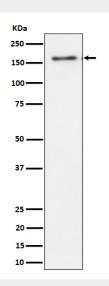

Cytoplasm. Nucleus. Golgi apparatus membrane. Note=Concentrated at the budding structures localized at the tips of cisternae

TMF Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

TMF Antibody - Images

Western blot analysis of TMF expression in HeLa cell lysate.
