

Lunatic Fringe Antibody Rabbit mAb Catalog # AP93143

Specification

Lunatic Fringe Antibody - Product Information

Application Primary Accession Reactivity Clonality Other Names SCDO3;	WB <u>08NES3</u> Rat Monoclonal
lsotype	Rabbit IgG
Host	Rabbit
Calculated MW	41773 Da

Lunatic Fringe Antibody - Additional Information

Dilution Purification	WB~~1:1000 Affinity-chromatography
Immunogen	A synthesized peptide derived from human Lunatic Fringe
Description	Glycosyltransferase that initiates the elongation of O-linked fucose residues attached to EGF-like repeats in the extracellular domain of Notch molecules.
Storage Condition and Buffer	Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Lunatic Fringe Antibody - Protein Information

Name LFNG (HGNC:6560)

Function

Glycosyltransferase that initiates the elongation of O-linked fucose residues attached to EGF-like repeats in the extracellular domain of Notch molecules. Modulates NOTCH1 activity by modifying O- fucose residues at specific EGF-like domains resulting in inhibition of NOTCH1 activation by JAG1 and enhancement of NOTCH1 activation by DLL1 via an increase in its binding to DLL1 (By similarity). Decreases the binding of JAG1 to NOTCH2 but not that of DLL1 (PubMed:11346656). Essential mediator of somite segmentation and patterning (By similarity).

Cellular Location

Golgi apparatus {ECO:0000250|UniProtKB:O09010}. Golgi apparatus membrane; Single-pass type II membrane protein

Lunatic Fringe Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

Lunatic Fringe Antibody - Images

Western blot analysis of Lunatic Fringe expression in HeLa cell lysate.
