

## **CD68**

Rabbit Monoclonal Antibody (Mab) Catalog # APA014

## **Specification**

## **CD68 - Product Information**

| CD68 - Additional InformationGene ID<br>Gene Name<br>Other Names<br>Macrosialin, Gp110, CD68, CD68968<br>CD68Dilution<br>IHC~~1:100~500StorageStorageMaintain refrigerated at 2-8°C for up to 2<br>weeks. For long term storage store at<br>-20°C in small aliquots to prevent<br>freeze-thaw cycles.PrecautionsCD68 is for research use only and not for<br>use in diagnostic or therapeutic<br>procedures.CD68 - Protein InformationCould play a role in phagocytic activities<br>of tissue macrophages, both in |

| Name CD68   Function Could play a role in phagocytic activities of tissue macrophages, both in   |
| Function Could play a role in phagocytic activities of tissue macrophages, both in   |
| of tissue macrophages, both in   |
| intracellular lysosomal metabolism and<br>extracellular cell-cell and cell-pathogen<br>interactions. Binds to tissue- and<br>organ-specific lectins or selectins, allowing<br>homing of macrophage subsets to<br>particular sites. Rapid recirculation of<br>CD68 from endosomes and lysosomes to<br>the plasma membrane may allow<br>macrophages to crawl over<br>selectin-bearing substrates or other cells.   |
| Cellular Location [Isoform Short]: Cell membrane;<br>Single-pass type I membrane protein   |

**Tissue Location** 

Highly expressed by blood monocytes and

tissue macrophages. Also expressed in lymphocytes, fibroblasts and endothelial cells. Expressed in many tumor cell lines which could allow them to attach to selectins on vascular endothelium, facilitating their dissemination to secondary sites.

## CD68 - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>
