

Anti-ICOS / CD278 Reference Antibody (feladilimab)
Recombinant Antibody
Catalog # APR10123**Specification**

Anti-ICOS / CD278 Reference Antibody (feladilimab) - Product Information

Application	FC, E, FTA
Primary Accession	O9Y6W8
Reactivity	Cynomolgus, Human
Clonality	Monoclonal
Isotype	IgG4PE
Calculated MW	145.52 KDa

Anti-ICOS / CD278 Reference Antibody (feladilimab) - Additional Information**Target/Specificity**
ICOS / CD278**Endotoxin**

< 0.001EU/ µg,determined by LAL method.

Conjugation

Unconjugated

Expression system

CHO Cell

Format

Purified monoclonal antibody supplied in PBS, pH6.0, without preservative.This antibody is purified through a protein A column.

Storage

-80°C for 2 years under sterile conditions □ -20°C for 1 year under sterile conditions □ Avoid repeated freeze-thaw cycles.

Anti-ICOS / CD278 Reference Antibody (feladilimab) - Protein Information**Name** ICOS**Synonyms** AILIM**Function**

Enhances all basic T-cell responses to a foreign antigen, namely proliferation, secretion of lymphokines, up-regulation of molecules that mediate cell-cell interaction, and effective help for antibody secretion by B-cells. Essential both for efficient interaction between T and B-cells and for normal antibody responses to T-cell dependent antigens. Does not up-regulate the production of interleukin- 2, but superinduces the synthesis of interleukin-10. Prevents the apoptosis of pre-activated T-cells. Plays a critical role in CD40- mediated class switching of immunoglobulin

isotypes (By similarity).

Cellular Location

[Isoform 1]: Cell membrane; Single- pass type I membrane protein

Tissue Location

Activated T-cells. Highly expressed on tonsillar T- cells, which are closely associated with B-cells in the apical light zone of germinal centers, the site of terminal B-cell maturation Expressed at lower levels in thymus, lung, lymph node and peripheral blood leukocytes. Expressed in the medulla of fetal and newborn thymus

Anti-ICOS / CD278 Reference Antibody (feladilimab) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)

Anti-ICOS / CD278 Reference Antibody (feladilimab) - Images

Anti-ICOS / CD278 Reference Antibody (feladilimab) on SDS-PAGE under reducing (R) condition. The gel was stained with Coomassie Blue. The purity of the protein is greater than 95%

The purity of Anti-ICOS / CD278 Reference Antibody (feladilimab) is more than 99.12%, determined by SEC-HPLC.

Immobilized human ICOS FC at 2 µg/mL can bind Anti-ICOS / CD278 Reference Antibody (feladilimab) \square EC50=0.09127 µg/mL
