

#### Anti-TREM1 / CD354 Reference Antibody (PY159) Recombinant Antibody Catalog # APR10215

## Specification

# Anti-TREM1 / CD354 Reference Antibody (PY159) - Product Information

Application Primary Accession Reactivity Clonality Isotype Calculated MW FC, Kinetics, Animal Model <u>O9NP99</u> Human Monoclonal IgG1 143.66 KDa

## Anti-TREM1 / CD354 Reference Antibody (PY159) - Additional Information

Target/Specificity TREM1 / CD354

**Endotoxin** < 0.001EU/ μg,determined by LAL method.

Conjugation Unconjugated

Expression system CHO Cell

Format

Purified monoclonal antibody supplied in PBS, pH6.0, without preservative. This antibody is purified through a protein A column.

## Anti-TREM1 / CD354 Reference Antibody (PY159) - Protein Information

Name TREM1

## Function

[Isoform 1]: Cell surface receptor that plays important roles in innate and adaptive immunity by amplifying inflammatory responses (PubMed:<a href="http://www.uniprot.org/citations/10799849" target="\_blank">10799849</a>, PubMed:<a href="http://www.uniprot.org/citations/21393102" target="\_blank">21393102</a>). Upon activation by various ligands such as PGLYRP1, HMGB1 or HSP70, multimerizes and forms a complex with transmembrane adapter TYROBP/DAP12 (PubMed:<a href="http://www.uniprot.org/citations/17568691" target="\_blank">17568691</a>, PubMed:<a href="http://www.uniprot.org/citations/25595774" target="\_blank">25595774</a>, PubMed:<a href="http://www.uniprot.org/citations/25595774" target="\_blank">25595774</a>, PubMed:<a href="http://www.uniprot.org/citations/29568119" target="\_blank">29568119</a>). In turn, initiates a SYK-mediated cascade of tyrosine phosphorylation, activating multiple downstream mediators such as BTK, MAPK1, MAPK3 or phospholipase C-gamma (PubMed:<a href="http://www.uniprot.org/citations/14656437" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/14656437" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/14656437" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/26595774" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/29568119" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/29568119" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/29568119" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/14656437" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/21659545" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/21659545" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/21659545" target="\_blank">14656437</a>, PubMed:<a href="http://www.uniprot.org/citations/21659545" target="\_blank">14656437</a>, PubM

promotes the neutrophil- and macrophage- mediated release of pro-inflammatory cytokines and/or chemokines, as well as their migration and thereby amplifies inflammatory responses that are triggered by bacterial and fungal infections (PubMed:<a

href="http://www.uniprot.org/citations/17098818" target="\_blank">17098818</a>, PubMed:<a href="http://www.uniprot.org/citations/17568691" target="\_blank">17568691</a>). By also promoting the amplification of inflammatory signals that are initially triggered by Toll-like receptor (TLR) and NOD-like receptor engagement, plays a major role in the pathophysiology of acute and chronic inflammatory diseases of different etiologies including septic shock and atherosclerosis (PubMed:<a href="http://www.uniprot.org/citations/11323674" target="\_blank">11323674</a>, PubMed:<a href="http://www.uniprot.org/citations/21393102" target="\_blank">21393102</a>).

#### **Cellular Location**

[Isoform 1]: Cell membrane; Single-pass type I membrane protein. Note=Recruited to lipid rafts when activated.

#### Tissue Location

Mostly expressed by immune cells of the myeloid lineage, such as monocytes, macrophages, neutrophils and dendritic cells (PubMed:10799849). Expression is associated with a mature stage of myeloid development (PubMed:11922939). Highly expressed in adult liver, lung and spleen than in corresponding fetal tissue. Also expressed in the lymph node, placenta, spinal cord and heart tissues lsoform 2 was detected in the lung, liver and mature monocytes

# Anti-TREM1 / CD354 Reference Antibody (PY159) - Protocols

Provided below are standard protocols that you may find useful for product applications.

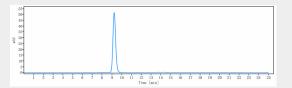

- <u>Western Blot</u>
- <u>Blocking Peptides</u>
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

Anti-TREM1 / CD354 Reference Antibody (PY159) - Images

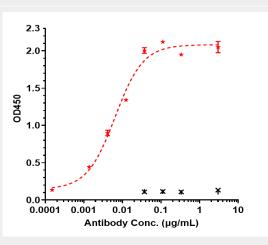

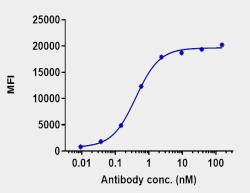

Anti-TREM1 / CD354 Reference Antibody (PY159) on SDS-PAGE under reducing (R) condition. The gel was stained with Coomassie Blue. The purity of the protein is greater than 95%

The purity of Anti-TREM1 / CD354 Reference Antibody (PY159) is more than 95% ,determined by SEC-HPLC.

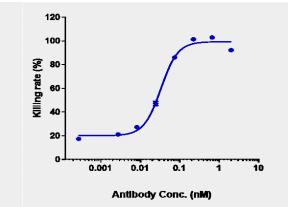

Immobilized human TREM1 His at 2  $\mu$ g/mL can bind Anti-TREM1 / CD354 Reference Antibody (PY159) [EC50=0.00645  $\mu$ g/mL

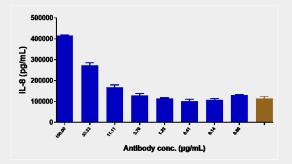

Human TREM1 HEK293 cells were stained with Anti-TREM1 / CD354 Reference Antibody (PY159) and negative control protein respectively, washed and then followed by PE and analyzed with FACS, EC275=0.7744nM

The endocytosis ratio PY159 by hu-TREM1-HEK293 increased with the increase of antibody concentration, and the Internalization Rate (%) reached 80% at antibody concentration of 0.3 nM.

Anti-TREM1 Reference Antibody (PY159) Activation was evaluated using PBMC. The max induction fold was approximately 3.16
