

ECRG1 Antibody
Catalog # ASC11385**Specification****ECRG1 Antibody - Product Information**

Application	WB, E
Primary Accession	Q6ZMR5
Other Accession	Q6ZMR5, 167466250
Reactivity	Human, Mouse, Rat
Host	Chicken
Clonality	Polyclonal
Isotype	IgY
Application Notes	ECRG1 antibody can be used for detection of ECRG1 by Western blot at 1 µg/mL.

ECRG1 Antibody - Additional Information

Gene ID **339967**

Target/Specificity

TMPRSS11A; At least two isoforms of ECRG1 are known to exist; ECRG1 antibody is predicted to not cross-react with other ECRG family members.

Reconstitution & Storage

ECRG1 antibody can be stored at 4°C for three months and -20°C, stable for up to one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures.

Precautions

ECRG1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

ECRG1 Antibody - Protein Information

Name TMPRSS11A

Synonyms ECRG1, HATL1, HESP

Function

Probable serine protease which may play a role in cellular senescence. Overexpression inhibits cell growth and induce G1 cell cycle arrest.

Cellular Location

Membrane; Single-pass type II membrane protein

Tissue Location

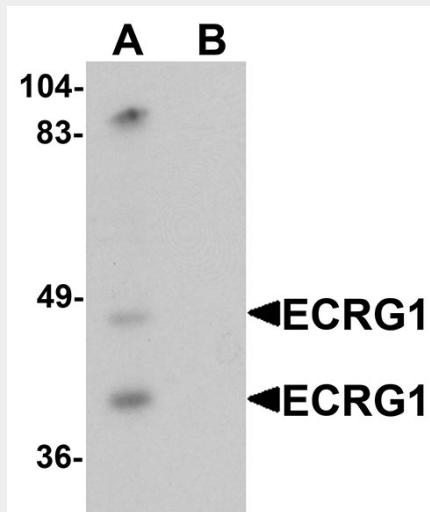

Expressed in esophagus, liver, colon and lung. Down-regulated in esophagus cancers.

ECRG1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

ECRG1 Antibody - Images

Western blot analysis of ECRG1 in mouse liver tissue lysate with ECRG1 antibody at 1 µg/mL in (A) the absence and (B) the presence of blocking peptide.

ECRG1 Antibody - Background

ECRG1 Antibody: Epidermal type-II transmembrane serine protease (ECRG1), also known as TMPRSS11A, is a member of a novel esophageal cancer-related gene family. It is a type-II transmembrane serine protease which may play a role in cellular senescence. It is expressed in esophagus, liver, colon and lung. Overexpression of ECRG1 inhibits cell growth and induces G1 cell cycle arrest. It is down-regulated in esophagus cancers (EC) and might play important roles in the initiation and progression of EC.
