

**BNIP3 Antibody**  
**Catalog # ASM10545****Specification**

---

**BNIP3 Antibody - Product Information**

|                                    |                             |
|------------------------------------|-----------------------------|
| Application                        | WB, ICC                     |
| Primary Accession                  | <a href="#">Q12983</a>      |
| Other Accession                    | <a href="#">NP_004043.3</a> |
| Host                               | Rabbit                      |
| Reactivity                         | Human                       |
| Clonality                          | Polyclonal                  |
| <b>Description</b>                 |                             |
| Rabbit Anti-Human BNIP3 Polyclonal |                             |

**Target/Specificity**

Predicted molecular weight at ~21.5kDa. Observed bands at ~20-30kDa and 50-60kDa due to the homodimer complex of BNIP3.

**Other Names**

NIP3 Antibody, BCL2 Adenovirus E1B 19kDa Interacting Protein 3 Antibody, BNIP3\_Human Antibody

**Immunogen**

Synthetic peptide from the C-terminal of human BNIP3

**Purification**

Peptide Affinity Purified

Storage -20°C

**Storage Buffer**

PBS, 50% glycerol, 0.09% sodium azide

Shipping Temperature Blue Ice or 4°C

**Certificate of Analysis**

A 1:1000 dilution of SPC-685 was sufficient for detection of BNIP3 on mouse kidney lysates using Goat anti-rabbit IgG:HRP as the secondary antibody.

**Cellular Localization**

Mitochondrion | Mitochondrion outer membrane

**BNIP3 Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

## BNIP3 Antibody - Images

Immunocytochemistry/Immunofluorescence analysis using Rabbit Anti-BNIP3 Polyclonal Antibody (ASM10545). Tissue: Fibroblast cell line (NIH 3T3). Species: Human. Fixation: 4% Formaldehyde for 15 min at RT. Primary Antibody: Rabbit Anti-BNIP3 Polyclonal Antibody (ASM10545) at 1:100 for 60 min at RT. Secondary Antibody: Goat Anti-Rabbit ATTO 488 at 1:100 for 60 min at RT. Counterstain: Phalloidin Texas Red F-Actin stain; DAPI (blue) nuclear stain at 1:1000, 1:5000 for 60min RT, 5min RT. Localization: Cytoplasm . Magnification: 60X. (A) DAPI (blue) nuclear stain (B) Phalloidin Texas Red F-Actin stain (C) BNIP3 Antibody (D) Composite.

Western blot analysis of Human HeLa and 293T cell lysates showing detection of ~30kDa BNIP3 protein using Rabbit Anti-BNIP3 Polyclonal Antibody (ASM10545). Lane 1: MW Ladder. Lane 2: Human HeLa (20 µg). Lane 3: Human 293T (20 µg). Load: 20 µg. Block: 5% milk + TBST for 1 hour at RT. Primary Antibody: Rabbit Anti-BNIP3 Polyclonal Antibody (ASM10545) at 1:1000 for 1 hour at RT. Secondary Antibody: Goat Anti-Rabbit: HRP at 1:2000 for 1 hour at RT. Color Development: TMB solution for 12 min at RT. Predicted/Observed Size: ~30kDa .

Western blot analysis of Mouse Kidney showing detection of ~30kDa BNIP3 protein using Rabbit Anti-BNIP3 Polyclonal Antibody (ASM10545). Lane 1: MW Ladder. Lane 2: Mouse Kidney (20 µg). Load: 20 µg. Block: 5% milk + TBST for 1 hour at RT. Primary Antibody: Rabbit Anti-BNIP3 Polyclonal Antibody (ASM10545) at 1:1000 for 1 hour at RT. Secondary Antibody: Goat Anti-Rabbit: HRP at 1:2000 for 1 hour at RT. Color Development: TMB solution for 12 min at RT. Predicted/Observed Size: ~30kDa . Other Band(s): ~60kDa (BNIP3 complex).

### **BNIP3 Antibody - Background**

BNIP3 is an apoptosis-inducing protein which can overcome BCL2 suppression. It may play a role in repartitioning calcium between the two major intracellular calcium stores in association with BCL2. It has been shown to interact with CD47, BCL2-like, and BCL-2 (1-3).
