

**Anti-Rabbit IgG F(c) Secondary Antibody**  
**Donkey Polyclonal, Unconjugated**  
**Catalog # ASR1362****Specification****Anti-Rabbit IgG F(c) Secondary Antibody - Product Information**

|                       |                                                                                               |
|-----------------------|-----------------------------------------------------------------------------------------------|
| Description           | <b>Anti-RABBIT IgG F(c) (DONKEY) Antibody</b>                                                 |
| Host                  | <b>Donkey</b>                                                                                 |
| Conjugate             | <b>Unconjugated</b>                                                                           |
| Target Species        | <b>Rabbit</b>                                                                                 |
| Reactivity            | <b>Rabbit</b>                                                                                 |
| Clonality             | <b>Polyclonal</b>                                                                             |
| Application           | <b>WB, E, IC</b>                                                                              |
| Application Note      | <b>ELISA 1:20,000-1:100,000;Western Blot 1:2,000-1:10,000;Immunochemistry 1:1,000-1:5,000</b> |
| Physical State        | <b>Lyophilized</b>                                                                            |
| Host Isotype          | <b>Antiserum</b>                                                                              |
| Target Isotype        | <b>IgG F(c)</b>                                                                               |
| Buffer                | <b>0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2</b>                                |
| Immunogen             | <b>Rabbit IgG F(c) fragment</b>                                                               |
| Reconstitution Volume | <b>2.0 mL</b>                                                                                 |
| Reconstitution Buffer | <b>Restore with deionized water (or equivalent)</b>                                           |
| Stabilizer            | <b>None</b>                                                                                   |
| Preservative          | <b>None</b>                                                                                   |

**Anti-Rabbit IgG F(c) Secondary Antibody - Additional Information****Shipping Condition****Ambient****Purity**

This product was prepared from monospecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against Rabbit IgG, Rabbit IgG F(c) and Rabbit Serum. No reaction was observed against Rabbit IgG F(ab')<sub>2</sub>.

**Storage Condition**

Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

**Precautions Note**

This product is for research use only and is not intended for therapeutic or diagnostic applications.

**Anti-Rabbit IgG F(c) Secondary Antibody - Protein Information**

## **Anti-Rabbit IgG F(c) Secondary Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

## **Anti-Rabbit IgG F(c) Secondary Antibody - Images**

## **Anti-Rabbit IgG F(c) Secondary Antibody - Background**

Anti-Rabbit antibody generated in donkey detects specifically rabbit IgG F(s). This secondary antibody anti-Rabbit is ideal for investigators who routinely perform titration assays, western-blot, immunoprecipitation and more generally immunoassays.
