**Anti-Cat IgG (H&L) Secondary Antibody - Product Information**

|                  |                                                                                               |
|------------------|-----------------------------------------------------------------------------------------------|
| Description      | <b>Anti-CAT IgG (H&amp;L) (GOAT) Antibody</b>                                                 |
| Host             | <b>Goat</b>                                                                                   |
| Conjugate        | <b>Unconjugated</b>                                                                           |
| Target Species   | <b>Cat</b>                                                                                    |
| Clonality        | <b>Polyclonal</b>                                                                             |
| Application      | <b>,1,10,15,</b>                                                                              |
| Application Note | <b>ELISA 1:20,000-1:100,000;Western Blot 1:2,000-1:10,000;Immunochemistry 1:1,000-1:5,000</b> |
| Physical State   | <b>Liquid (sterile filtered)</b>                                                              |
| Host Isotype     | <b>IgG</b>                                                                                    |
| Target Isotype   | <b>IgG (H&amp;L)</b>                                                                          |
| Buffer           | <b>0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2</b>                                |
| Immunogen        | <b>Cat IgG whole molecule</b>                                                                 |
| Stabilizer       | <b>None</b>                                                                                   |
| Preservative     | <b>0.01% (w/v) Sodium Azide</b>                                                               |

**Anti-Cat IgG (H&L) Secondary Antibody - Additional Information****Shipping Condition**

Wet Ice

**Purity**

This product was prepared from monospecific antiserum by immunoaffinity chromatography using Cat IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Goat Serum, Cat IgG and Cat Serum.

**Storage Condition**

Store vial at 4° C prior to opening. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing.

**Precautions Note**

This product is for research use only and is not intended for therapeutic or diagnostic applications.
