**Fab Anti-Rat IgG (H&L) Secondary Antibody - Product Information**

|                  |                                                                                                  |
|------------------|--------------------------------------------------------------------------------------------------|
| Description      | <b>F(ab) Anti-RAT IgG (H&amp;L) (RABBIT) Antibody</b>                                            |
| Host             | <b>Rabbit</b>                                                                                    |
| Conjugate        | <b>Unconjugated</b>                                                                              |
| Target Species   | <b>Rat</b>                                                                                       |
| Clonality        | <b>Polyclonal</b>                                                                                |
| Application      | <b>,1,2,10,</b>                                                                                  |
| Application Note | <b>ELISA 1:5,000-1:85,000;Western Blot 1:2,000-1:10,000;Immunohistochemistry 1:1,000-1:5,000</b> |
| Physical State   | <b>Liquid (sterile filtered)</b>                                                                 |
| Host Isotype     | <b>IgG F(ab)</b>                                                                                 |
| Target Isotype   | <b>IgG (H&amp;L)</b>                                                                             |
| Buffer           | <b>0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2</b>                                |
| Immunogen        | <b>Rat IgG whole molecule</b>                                                                    |
| Stabilizer       | <b>None</b>                                                                                      |
| Preservative     | <b>0.01% (w/v) Sodium Azide</b>                                                                  |

**Fab Anti-Rat IgG (H&L) Secondary Antibody - Additional Information****Shipping Condition**

Wet Ice

**Purity**

This product was prepared from monospecific antiserum by immunoaffinity chromatography using Rat IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities, pepsin digestion and chromatographic separation. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Rabbit Serum. No reaction was observed against anti-Pepsin or anti-Rabbit IgG F(c).

**Storage Condition**

Store vial at 4° C prior to opening. This product is stable at 4° C as an undiluted liquid. Dilute only prior to immediate use.

**Precautions Note**

This product is for research use only and is not intended for therapeutic or diagnostic applications.
