

Horse IgG Fab

Catalog # ASR2301

Specification

Horse IgG Fab - Product Information

Description Conjugate Physical State Host Isotype Buffer

Species of Origin Stabilizer Preservative HORSE IgG F(ab) fragment
Unconjugated
Liquid (sterile filtered)
IgG F(ab)
0.02 M Potassium Phosphate, 0.15 M
Sodium Chloride, pH 7.2
Horse
None
0.01% (w/v) Sodium Azide

Horse IgG Fab - Additional Information

Shipping Condition

Wet Ice

Purity

This product was prepared from normal serum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by papain digestion and extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Horse Serum, anti-Horse IgG and anti-Horse IgG F(ab')2. No reaction was observed against anti-Horse IgG F(c) or anti-Papain.

Storage Condition

Store vial at 4° C prior to opening. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use. For extended storage, aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing.

Precautions Note

This product is for research use only and is not intended for therapeutic or diagnostic applications.
