

**Anti-Human IgG (H&L) (Fluorescein Conjugated) Secondary Antibody**  
**Rabbit Polyclonal, Fluorescein (FITC)**  
**Catalog # ASR3389****Specification****Anti-Human IgG (H&L) (Fluorescein Conjugated) Secondary Antibody - Product Information**

|                       |                                                                                                            |
|-----------------------|------------------------------------------------------------------------------------------------------------|
| Description           | <b>Anti-HUMAN IgG (H&amp;L) (RABBIT) Antibody</b>                                                          |
| Host                  | <b>Fluorescein Conjugated</b>                                                                              |
| Conjugate             | <b>Rabbit</b>                                                                                              |
| Target Species        | <b>Fluorescein (FITC)</b>                                                                                  |
| Clonality             | <b>Human</b>                                                                                               |
| Application           | <b>Polyclonal</b>                                                                                          |
| Application Note      | <b>,3,4,<br/>FLISA 1:10,000-1:50,000;IF Microscopy<br/>1:1,000-1:5,000;FlowCytometry<br/>1:500-1:2,500</b> |
| Physical State        | <b>Lyophilized</b>                                                                                         |
| Host Isotype          | <b>IgG</b>                                                                                                 |
| Target Isotype        | <b>IgG (H&amp;L)</b>                                                                                       |
| Buffer                | <b>0.02 M Potassium Phosphate, 0.15 M<br/>Sodium Chloride, pH 7.2</b>                                      |
| Immunogen             | <b>Human IgG whole molecule</b>                                                                            |
| Reconstitution Volume | <b>2.0 mL</b>                                                                                              |
| Reconstitution Buffer | <b>Restore with deionized water (or<br/>equivalent)</b>                                                    |

**Anti-Human IgG (H&L) (Fluorescein Conjugated) Secondary Antibody - Additional Information****Shipping Condition**

Ambient

**Purity**

This product is an IgG fraction antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Rabbit Serum, Human IgG and Human Serum.

**Storage Condition**

Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

**Precautions Note**

This product is for research use only and is not intended for therapeutic or diagnostic applications.

**Anti-Human IgG (H&L) (Fluorescein Conjugated) Secondary Antibody - Protein**

## Information

### **Anti-Human IgG (H&L) (Fluorescein Conjugated) Secondary Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

### **Anti-Human IgG (H&L) (Fluorescein Conjugated) Secondary Antibody - Images**

### **Anti-Human IgG (H&L) (Fluorescein Conjugated) Secondary Antibody - Background**

This product is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms.
