

Anti-PEPSIN (GOAT) Antibody

Pepsin Antibody Catalog # ASR3638

Specification

Anti-PEPSIN (GOAT) Antibody - Product Information

Host Goat

Conjugate Unconjugated

Target Species Swine
Reactivity Pig
Clanality Polycle

Clonality Polyclonal Application WB, E, I, LCI

Application Note This product has been assayed against 1.0

ug of Pepsin [Porcine stomach] in a standard ELISA using Peroxidase

conjugated Affinity Purified anti-Goat IgG [H&L] (Rabbit) code #605-1302 and (ABTS (2,2'-azino-bis-[3-ethylbenthiazoline-6-sulf onic acid]) code # ABTS-100 as a substrate for 30 minutes at room temperature. A working dilution of 1:3,000 to 1:11,000 of

the reconstitution concentration is

suggested for this product.

Physical State Lyophilized

Buffer 0.01 M Sodium Phosphate, 0.15 M Sodium

Chloride, pH 7.2

Immunogen Pepsin [Porcine stomach]

Reconstitution Volume 2.0 mL

Reconstitution Buffer Restore with deionized water (or

equivalent)

Preservative 0.01% (w/v) Sodium Azide

Anti-PEPSIN (GOAT) Antibody - Additional Information

Other Names 396892

Purity

This product was prepared from monospecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-goat serum, purified and partially purified Pepsin [Porcine stomach]. Cross reactivity against Pepsin from other tissues and species may occur but have not been specifically determined.

Storage Condition

Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Precautions Note

This product is for research use only and is not intended for therapeutic or diagnostic applications.

Anti-PEPSIN (GOAT) Antibody - Protein Information

Name PGA

Function

Shows particularly broad specificity; although bonds involving phenylalanine and leucine are preferred, many others are also cleaved to some extent.

Cellular Location Secreted.

Anti-PEPSIN (GOAT) Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture
