

Anti-BETA-2-MICROGLOBULIN (Human Urine) (RABBIT) Antibody Peroxidase Conjugated

Beta-2-Microglobulin Antibody Peroxidase Conjugated Catalog # ASR4524

Specification

Anti-BETA-2-MICROGLOBULIN (Human Urine) (RABBIT) Antibody Peroxidase Conjugated -Product Information

| Host Conjugate Target Species Reactivity Clonality Application Application Note | Rabbit Peroxidase (Horseradish) Human Human Polyclonal WB, IHC, E, I, LCI Anti-beta-2-Microglobulin Peroxidase antibody has been tested in ELISA and western blotting, and is suitable for IF and IHC. Researchers should determine optimal titers for applications that are not stated below. |
|---|---|
| Physical State | Lyophilized |
| Buffer | 0.02 M Potassium Phosphate, 0.15 M |
| Immunogen | Sodium Chloride, pH 7.2 Anti-Beta-2-Microglobulin Antibody was |
| mmunogen | produced by repeated immunizations with |
| | beta-2-Microglobulin protein isolated from |
| | human urine. |
| Reconstitution Volume | 100 µL |
| Reconstitution Buffer | Restore with deionized water (or |
| Stabilizer | equivalent) 10 mg/mL Bovine Serum Albumin (BSA) - |
| Stabilizer | Immunoglobulin and Protease free |
| Preservative | 0.01% (w/v) Gentamicin Sulfate. Do NOT add Sodium Azide! |

Anti-BETA-2-MICROGLOBULIN (Human Urine) (RABBIT) Antibody Peroxidase Conjugated - Additional Information

Gene ID 567

Other Names 567

Purity

Anti-beta-2-Microglobulin antibody is an IgG fraction antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Peroxidase and anti-Rabbit Serum, as well as purified and partially purified b2-Microglobulin (Human Urine). Cross reactivity against b2-Microglobulin from other sources is unknown.

Storage Condition

Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Precautions Note This product is for research use only and is not intended for therapeutic or diagnostic applications.

Anti-BETA-2-MICROGLOBULIN (Human Urine) (RABBIT) Antibody Peroxidase Conjugated -Protein Information

Name B2M (HGNC:914)

Function

Component of the class I major histocompatibility complex (MHC). Involved in the presentation of peptide antigens to the immune system. Exogenously applied M.tuberculosis EsxA or EsxA-EsxB (or EsxA expressed in host) binds B2M and decreases its export to the cell surface (total protein levels do not change), probably leading to defects in class I antigen presentation (PubMed:25356553).

Cellular Location

Secreted. Cell surface. Note=Detected in serum and urine (PubMed:1336137, PubMed:7554280). {ECO:0000269|PubMed:7554280, ECO:0000269|Ref.6}

Anti-BETA-2-MICROGLOBULIN (Human Urine) (RABBIT) Antibody Peroxidase Conjugated -Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- <u>Blocking Peptides</u>
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

Anti-BETA-2-MICROGLOBULIN (Human Urine) (RABBIT) Antibody Peroxidase Conjugated -Background

Anti-beta-2-Microglobulin Antibody detects beta-2-Microglobulin. Beta-2-microglobulin is a component of the class I major histocompatibility complex (MHC), which are present on all nucleated cells (excludes red blood cells). It is involved in the presentation of peptide antigens to the immune system. Beta-2-microglobulin associates not only with the alpha chain of MHC class I molecules, but also with class I-like molecules such as CD1 and Qa. Defects in B2M are the cause of hypercatabolic hypoproteinemia. Anti-beta-2-Microglobulin Antibody is ideal for investigators involved in Cell Signaling, Immunology and Cell Biology research.
