

PerCP Anti-Human CD45 (2D1) Antibody
Catalog # ATB10433**Specification**

PerCP Anti-Human CD45 (2D1) Antibody - Product Information

Application	FC
Isotype	Mouse IgG1, kappa
Concentration	5 µL (0.5 µg)/test
Reactivity	Human
Formulation	10mM NaH ₂ PO ₄ , 150 mM NaCl, 0.09% NaN ₃ , 0.1% gelatin, pH 7.2 0.1% gelatin, pH 7.2

PerCP Anti-Human CD45 (2D1) Antibody - Additional Information

Gene ID	5788
Gene Name	PTPRC
Alternative Name(s)	
Leukocyte Common Antigen, LCA, Ly-5, Hle-1	

Format
PerCP**Storage Conditions**
2-8°C protected from light**PerCP Anti-Human CD45 (2D1) Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

PerCP Anti-Human CD45 (2D1) Antibody - Images**PerCP Anti-Human CD45 (2D1) Antibody - Background**

The 2D1 antibody reacts with human CD45, one of the most abundant hematopoietic markers and one that is expressed on all leukocytes (the Leukocyte Common Antigen, LCA). CD45 is a protein tyrosine phosphatase existing in several isoforms, each being generated and expressed in cell-specific patterns. With its broad cell distribution, CD45 is critical for many leukocyte functions, regulating signal transduction and cell activation associated with the T cell receptor, B cell receptor, and IL-2 receptor. Other forms of CD45, with restricted cellular expression, include CD45R (B220),

CD45RA, CD45RB, and CD45RO.

The 2D1 antibody is widely used as a marker for human CD45 expression on peripheral blood T cells, B cells, monocytes, macrophages, and NK cells.
