

CRTAP Antibody (N-term)

Affinity Purified Rabbit Polyclonal Antibody (Pab) Catalog # AW5097

Specification

CRTAP Antibody (N-term) - Product Information

Application IF, WB,E **Primary Accession** 075718 Other Accession NP 006362.1 Reactivity Human Predicted Mouse Host Rabbit Clonality **Polyclonal** Calculated MW H=47;M=46 KDa Rabbit IgG Isotype Antigen Source **HUMAN**

CRTAP Antibody (N-term) - Additional Information

Gene ID 10491

Antigen Region

31-59

Other Names

CRTAP; CASP; Cartilage-associated protein

Dilution

IF~~1:25 WB~~1:1000

Target/Specificity

This CRTAP antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 31-59 amino acids from the N-terminal region of human CRTAP.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

CRTAP Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

CRTAP Antibody (N-term) - Protein Information

Name CRTAP

Synonyms CASP

Function

Necessary for efficient 3-hydroxylation of fibrillar collagen prolyl residues.

Cellular Location

Secreted, extracellular space, extracellular matrix

Tissue Location

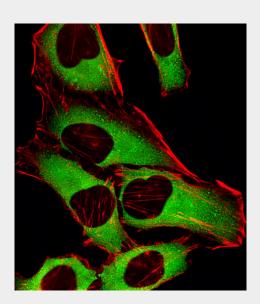

Found in articular chondrocytes. Expressed in a variety of tissues

CRTAP Antibody (N-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

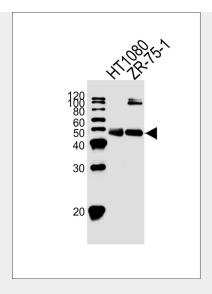

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture

CRTAP Antibody (N-term) - Images

Fluorescent image of Hela cells stained with CRTAP Antibody (N-term)(Cat#AW5097). AW5097 was diluted at 1:25 dilution. An Alexa Fluor 488-conjugated goat anti-rabbit lgG at 1:400 dilution was used as the secondary antibody (green). Cytoplasmic actin was counterstained with Alexa Fluor® 555 conjugated with Phalloidin (red).

Western blot analysis of lysates from HT1080,ZR-75-1 cell line (from left to right), using CRTAP Antibody (N-term)(Cat. #AW5097). AW5097 was diluted at 1:1000 at each lane. A goat anti-rabbit IgG H&L(HRP) at 1:10000 dilution was used as the secondary antibody.

CRTAP Antibody (N-term) - Background

The protein encoded by this gene is similar to the chicken and mouse CRTAP genes. The encoded protein is a scaffolding protein that may influence the activity of at least one member of the cytohesin/ARNO family in response to specific cellular stimuli. Defects in this gene are associated with osteogenesis imperfecta, a connective tissue disorder characterized by bone fragility and low bone mass.
