

BTG2 Antibody (N-term) Blocking peptide
Synthetic peptide
Catalog # BP10121a**Specification**

BTG2 Antibody (N-term) Blocking peptide - Product Information

Primary Accession [P78543](#)
Other Accession [NP_006754.1](#)

BTG2 Antibody (N-term) Blocking peptide - Additional Information

Gene ID 7832

Other Names

Protein BTG2, BTG family member 2, NGF-inducible anti-proliferative protein PC3, BTG2, PC3

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

BTG2 Antibody (N-term) Blocking peptide - Protein Information

Name BTG2

Synonyms PC3

Function

Anti-proliferative protein; the function is mediated by association with deadenylase subunits of the CCR4-NOT complex. Activates mRNA deadenylation in a CNOT6 and CNOT7-dependent manner. In vitro can inhibit deadenylase activity of CNOT7 and CNOT8. Involved in cell cycle regulation. Could be involved in the growth arrest and differentiation of the neuronal precursors (By similarity). Modulates transcription regulation mediated by ESR1. Involved in mitochondrial depolarization and neurite outgrowth.

BTG2 Antibody (N-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

BTG2 Antibody (N-term) Blocking peptide - Background

The protein encoded by this gene is a member of the BTG/Tob family. This family has structurally related proteins that appear to have antiproliferative properties. This encoded protein is involved in the regulation of the G1/S transition of the cell cycle.
