

LRRC25 Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP10562b**Specification**

LRRC25 Antibody (C-term) Blocking Peptide - Product Information

Primary Accession [Q8N386](#)
Other Accession [NP_660299.2](#)

LRRC25 Antibody (C-term) Blocking Peptide - Additional Information

Gene ID 126364

Other Names

Leucine-rich repeat-containing protein 25, Monocyte and plasmacytoid-activated protein, LRRC25, MAPA

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

LRRC25 Antibody (C-term) Blocking Peptide - Protein Information

Name LRRC25

Synonyms MAPA

Function

Plays a role in the inhibition of RLR-mediated type I interferon signaling pathway by targeting RIGI for autophagic degradation. Interacts specifically with ISG15-associated RIGI to promote interaction between RIGI and the autophagic cargo receptor p62/SQSTM1 to mediate RIGI degradation via selective autophagy (PubMed:[29288164](http://www.uniprot.org/citations/29288164)). Also plays a role in the inhibition of NF-kappa-B signaling pathway and inflammatory response by promoting the degradation of p65/RELA.

Cellular Location

Membrane; Single-pass type I membrane protein. Cytoplasm

Tissue Location

Expressed in plasmacytoid dendritic cells (PDC), monocyte-derived dendritic cells (MDDC), granulocytes, monocytes, B- lymphocytes, peripheral blood leukocytes, spleen, bone marrow, and,

to a lesser extent, lymph nodes, fetal liver, and appendix but not in thymus.

LRRC25 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
