

FAH Antibody (N-term) Blocking peptide
Synthetic peptide
Catalog # BP11966a**Specification**

FAH Antibody (N-term) Blocking peptide - Product InformationPrimary Accession [P16930](#)**FAH Antibody (N-term) Blocking peptide - Additional Information****Gene ID** 2184**Other Names**

Fumarylacetoacetase, FAA, Beta-diketonase, Fumarylacetoacetate hydrolase, FAH

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

FAH Antibody (N-term) Blocking peptide - Protein Information**Name** FAH**Tissue Location**

Mainly expressed in liver and kidney. Lower levels are also detected in many other tissues

FAH Antibody (N-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Blocking Peptides](#)

FAH Antibody (N-term) Blocking peptide - Images**FAH Antibody (N-term) Blocking peptide - Background**

This gene encodes the last enzyme in the tyrosine catabolism pathway. FAH deficiency is associated with Type 1 hereditary tyrosinemia (HT).
