

SEN5 Antibody (C-term) Blocking Peptide
Synthetic peptide
Catalog # BP1237a**Specification**

SEN5 Antibody (C-term) Blocking Peptide - Product InformationPrimary Accession [Q96HI0](#)**SEN5 Antibody (C-term) Blocking Peptide - Additional Information****Gene ID** 205564**Other Names**

Sentrin-specific protease 5, Sentrin/SUMO-specific protease SEN5, SEN5

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP1237a](/product/products/AP1237a) was selected from the C-term region of human SEN5. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

SEN5 Antibody (C-term) Blocking Peptide - Protein Information**Name** SEN5**Function**

Protease that catalyzes two essential functions in the SUMO pathway: processing of full-length SUMO3 to its mature form and deconjugation of SUMO2 and SUMO3 from targeted proteins. Has weak proteolytic activity against full-length SUMO1 or SUMO1 conjugates. Required for cell division.

Cellular Location

Nucleus, nucleolus

SEN5 Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

SENP5 Antibody (C-term) Blocking Peptide - Background

SENP5 is a protease that catalyzes two essential functions in the SUMO pathway: processing of full-length SUMO3 to its conjugatable mature form and deconjugation of SUMO2 and SUMO3 from targeted substrates. This protein has weak proteolytic activity against full-length SUMO1 or SUMO1 conjugates. SENP5 is required for cell division.
