

TIMM44 Antibody (N-term) Blocking peptide
Synthetic peptide
Catalog # BP12851a**Specification**

TIMM44 Antibody (N-term) Blocking peptide - Product Information

Primary Accession [O43615](#)

TIMM44 Antibody (N-term) Blocking peptide - Additional Information

Gene ID 10469

Other Names

Mitochondrial import inner membrane translocase subunit TIM44, TIMM44, MIMT44, TIM44

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

TIMM44 Antibody (N-term) Blocking peptide - Protein Information

Name TIMM44

Synonyms MIMT44, TIM44

Function

Essential component of the PAM complex, a complex required for the translocation of transit peptide-containing proteins from the inner membrane into the mitochondrial matrix in an ATP-dependent manner (By similarity). Recruits mitochondrial HSP70 to drive protein translocation into the matrix using ATP as an energy source (By similarity).

Cellular Location

Mitochondrion inner membrane; Peripheral membrane protein; Matrix side. Mitochondrion matrix

TIMM44 Antibody (N-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
