

LRSAM1 Antibody (N-term) Blocking peptide
Synthetic peptide
Catalog # BP12973a**Specification**

LRSAM1 Antibody (N-term) Blocking peptide - Product InformationPrimary Accession [Q6UWE0](#)**LRSAM1 Antibody (N-term) Blocking peptide - Additional Information**

Gene ID 90678

Other Names

E3 ubiquitin-protein ligase LRSAM1, 632-, Leucine-rich repeat and sterile alpha motif-containing protein 1, Tsg101-associated ligase, hTAL, LRSAM1, TAL

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

LRSAM1 Antibody (N-term) Blocking peptide - Protein Information

Name LRSAM1 {ECO:0000303|PubMed:20865121}

Function

E3 ubiquitin-protein ligase that mediates monoubiquitination of TSG101 at multiple sites, leading to inactivate the ability of TSG101 to sort endocytic (EGF receptors) and exocytic (HIV-1 viral proteins) cargos (PubMed:15256501). Bacterial recognition protein that defends the cytoplasm from invasive pathogens (PubMed:23245322). Localizes to several intracellular bacterial pathogens and generates the bacteria-associated ubiquitin signal leading to autophagy-mediated intracellular bacteria degradation (xenophagy) (PubMed:23245322, PubMed:25484098).

Cellular Location

Cytoplasm. Note=Displays a punctuate distribution and localizes to a submembranal ring (PubMed:15256501). Localizes to intracellular bacterial pathogens (PubMed:23245322)

Tissue Location

Highly expressed in adult spinal cord motoneurons as well as in fetal spinal cord and muscle tissue

LRSAM1 Antibody (N-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Blocking Peptides](#)

LRSAM1 Antibody (N-term) Blocking peptide - Images**LRSAM1 Antibody (N-term) Blocking peptide - Background**

LRSAM1 is a multifunctional RING finger protein that selectively regulates cell adhesion molecules, has ubiquitin ligase activity, and plays a role in receptor endocytosis and viral budding (Li et al., 2003 [PubMed 14635195]; Amit et al., 2004 [PubMed 15256501]).
