

CCDC134 Antibody (C-term) Blocking peptide

Synthetic peptide Catalog # BP13242b

Specification

CCDC134 Antibody (C-term) Blocking peptide - Product Information

Primary Accession

09H6E4

CCDC134 Antibody (C-term) Blocking peptide - Additional Information

Gene ID 79879

Other Names

Coiled-coil domain-containing protein 134, CCDC134

Target/Specificity

The synthetic peptide sequence used to generate the antibody AP13242b was selected from the C-term region of CCDC134. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

CCDC134 Antibody (C-term) Blocking peptide - Protein Information

Name CCDC134

Function

In extracellular secreted form, promotes proliferation and activation of CD8(+) T cells, suggesting a cytokine-like function (PubMed:25125657). Enhances cytotoxic anti-tumor activity of CD8(+) T cells (PubMed:25125657). May inhibit ERK and JNK signaling activity (PubMed:18087676, PubMed:23070808). May suppress cell migration and invasion activity, via its effects on ERK and JNK signaling (PubMed:23070808). Has a critical role in the regulation of osteogenesis and bone development (PubMed:32181939).

Cellular Location

Nucleus. Cytoplasm. Secreted Endoplasmic reticulum. Note=Accumulates in the nucleus in response to UV irradiation (PubMed:22644376)

Tissue Location

Expressed in cervical gland, cervical squamous epithelium, endometrium, stomach, kidney distal convoluted tubule, spermatogenic cells in testis, mammary gland, liver and striated muscle (at protein level) (PubMed:18087676, PubMed:23070808). Also detected in placenta (PubMed:18087676). Highest expression in testis relative to other tissues (PubMed:18087676). Detected in T cells and dendritic cells; highly expressed in activated CD8(+) T cells, and also expressed at lower levels in CD4(+) T cells (PubMed:25125657)

CCDC134 Antibody (C-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
