

MEA1 Antibody (N-term) Blocking peptide
Synthetic peptide
Catalog # BP13315a**Specification**

MEA1 Antibody (N-term) Blocking peptide - Product InformationPrimary Accession [Q16626](#)**MEA1 Antibody (N-term) Blocking peptide - Additional Information****Gene ID** 4201**Other Names**

Male-enhanced antigen 1, MEA-1, MEA1, MEA

Target/Specificity

The synthetic peptide sequence used to generate the antibody AP13315a was selected from the N-term region of MEA1. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

MEA1 Antibody (N-term) Blocking peptide - Protein Information**Name** MEA1**Synonyms** MEA**Function**

May play an important role in spermatogenesis and/or testis development.

Tissue Location

Highly expressed in testis.

MEA1 Antibody (N-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
