

**TLE6 Antibody (N-term ) Blocking peptide**  
**Synthetic peptide**  
**Catalog # BP13485a****Specification**

---

**TLE6 Antibody (N-term ) Blocking peptide - Product Information**Primary Accession [Q9H808](#)**TLE6 Antibody (N-term ) Blocking peptide - Additional Information****Gene ID** 79816**Other Names**

Transducin-like enhancer protein 6, TLE6

**Target/Specificity**

The synthetic peptide sequence used to generate the antibody AP13485a was selected from the N-term region of TLE6. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**TLE6 Antibody (N-term ) Blocking peptide - Protein Information****Name** TLE6**Function**

Regulates spermatogonia proliferation and cell cycle progression, potentially via regulation of cell cycle regulatory genes such as; CEBPB, CEBPA, CSF3, PCNA, and CDK4 (By similarity). Suppresses FOXG1/BF-1-mediated transcriptional repression by inhibiting interaction of the transcriptional corepressor TLE1 with FOXG1 which promotes cortical neuron differentiation (By similarity). Acts as a transcriptional corepressor of NFATC1-mediated gene expression by contributing to PAX6-mediated repression (By similarity).

**Cellular Location**

Nucleus {ECO:0000250|UniProtKB:Q9WVB3}. [Isoform 2]: Cytoplasm

**TLE6 Antibody (N-term ) Blocking peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

#### **TLE6 Antibody (N-term ) Blocking peptide - Images**

#### **TLE6 Antibody (N-term ) Blocking peptide - Background**

As a member of the subcortical maternal complex (SCMC), plays an essential role for zygotes to progress beyond the first embryonic cell divisions (By similarity).
