

# IL21 Antibody (C-term) Blocking peptide

Synthetic peptide Catalog # BP13840b

### **Specification**

### IL21 Antibody (C-term) Blocking peptide - Product Information

**Primary Accession** 

Q9HBE4

## IL21 Antibody (C-term) Blocking peptide - Additional Information

**Gene ID 59067** 

#### **Other Names**

Interleukin-21, IL-21, Za11, IL21

### Target/Specificity

The synthetic peptide sequence used to generate the antibody AP13840b was selected from the C-term region of IL21. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

#### **Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

#### **Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

#### **Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

# IL21 Antibody (C-term) Blocking peptide - Protein Information

Name IL21 (<u>HGNC:6005</u>)

#### **Function**

Cytokine with immunoregulatory activity. May promote the transition between innate and adaptive immunity. Induces the production of IgG(1) and IgG(3) in B-cells (By similarity). Implicated in the generation and maintenance of T follicular helper (Tfh) cells and the formation of germinal-centers. Together with IL6, control the early generation of Tfh cells and are critical for an effective antibody response to acute viral infection (By similarity). May play a role in proliferation and maturation of natural killer (NK) cells in synergy with IL15. May regulate proliferation of mature B- and T-cells in response to activating stimuli. In synergy with IL15 and IL18 stimulates interferon gamma production in T-cells and NK cells (PubMed:<a href="http://www.uniprot.org/citations/11081504" target="\_blank">11081504</a>, PubMed:<a href="http://www.uniprot.org/citations/15178704" target="\_blank">15178704</a>). During T-cell mediated immune response may inhibit dendritic cells (DC) activation and maturation (By similarity).

**Cellular Location** Secreted.

#### **Tissue Location**

Expressed in activated CD4-positive T-cells but not in CD8-positive T-cells, B-cells, or monocytes

### IL21 Antibody (C-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
