

OAF Antibody (N-term) Blocking peptide
Synthetic peptide
Catalog # BP14104a**Specification**

OAF Antibody (N-term) Blocking peptide - Product InformationPrimary Accession [Q86UD1](#)**OAF Antibody (N-term) Blocking peptide - Additional Information****Gene ID** 220323**Other Names**

Out at first protein homolog, HCV NS5A-transactivated protein 13 target protein 2, OAF, NS5ATP13TP2

Target/Specificity

The synthetic peptide sequence used to generate the antibody AP14104a was selected from the N-term region of OAF. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.
