

NAPB Antibody (N-term) Blocking Peptide
Synthetic peptide
Catalog # BP14249a**Specification**

NAPB Antibody (N-term) Blocking Peptide - Product Information

Primary Accession [Q9H115](#)

NAPB Antibody (N-term) Blocking Peptide - Additional Information

Gene ID 63908

Other Names

Beta-soluble NSF attachment protein, SNAP-beta, N-ethylmaleimide-sensitive factor attachment protein beta, NAPB, SNAPB

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

NAPB Antibody (N-term) Blocking Peptide - Protein Information

Name NAPB

Synonyms SNAPB

Function

Required for vesicular transport between the endoplasmic reticulum and the Golgi apparatus.

Cellular Location

Membrane; Peripheral membrane protein

NAPB Antibody (N-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

NAPB Antibody (N-term) Blocking Peptide - Background

NAPB is required for vesicular transport between the endoplasmic reticulum and the Golgi apparatus (By similarity).
